NOTICE!

The battery (rechargeable) contains diluted sulfuric acid, a very toxic substance.

- If the battery leaks and the liquid inside spills on the skin or clothing, immediately wash it off with plenty of clean water.
- If the liquid splashes into the eyes, immediately flush the eyes with plenty of clean water and consult a doctor. Sulfuric acid in the eyes may cause loss of eyesight and acid on the skin will cause burns.
- Pay attention to the included documentation of the battery supplier!
