

Product Description:

ATF DX III is a high quality universal fluid to be used in automatic transmission, torque convertors and power steering of passenger car, light vans and commercial vehicles.

ATF DX III is formulated on high refined solvent mineral and synthetic base stock in combination with an unique additive package to reach the following properties.

- Excellent thermal- and oxidation stability.
- Special friction modifiers.
- Very high viscosity Index.
- Low pourpoint.
- Excellent shifting at very low and high temperatures.
- Excellent protection against the forming corrosion, foam and wear.

ATF DX III meets the following performance criteria:

DEXRON III H	Allison C4	MAN 339 V1/Z1	MB 236.9
Voith H55.6335.xx	ZF TE-ML 03D	ZF TE-ML 14A	VOLVO 97341
FORD M	GM D-IID	GM D-IIIG/H	VOLVO 97340

Property	Unit	Test Method	Typical Value
Color		Visual	Red
Density @15°C	kg/m ³	ASTM D4052	850
Kin. Viscosity @40°C	mm²/s	ASTM D7042	36.8
Kin. Viscosity @100°C	mm²/s	ASTM D7042	7.6

ATF MV

Product Description:

ATF MV is a high quality synthetic fluid specially designed with advanced multi-vehicle additive technology to serve a broad range of. ATF MV exceeds the complex requirements of Automatic Transmission/ Vehicle Manufacturers of Europe, North America and Asia including the JASO 1-A performance standard created by Japanese Automobile Manufacturers Association.

Remark: Not suitable for use in Continuously Variable Transmissions (CVT), Dual Clutch Transmission (DCT), Daimler MB 7 speed (NAG 2), ZF 6 Speed.

ATF MV is based on fully synthetic base in combination with an unique additive package to ensure the following properties:

- Excellent thermo- and oxidation stability.
- Excellent lubrication, even under extreme conditions.
- Very high protection against wear, corrosion and foam.
- High "shear stable".
- Very low Pour point, can be used by very cold temperatures.
- High Viscosity Index.

ATF MV exceeds the following performance criteria:

Allison C4, TES 295 ATF Chrysler +3, +4	LT 71141, LA 2634 Ford Mercon	ETL -7045E, 8072B Ford Mercon V	Chrysler AS68RC Dexron IID, IIIG/H

Product Data Sheet AUTOGEAR OIL MP **75W-90**

Product Description:

AUTOGEAR OIL MP 75W-90 is a universal high performance multi-purpose gear oil for use in differentials, axles and some transmissions of passenger cars, vans, light- and heavy commercial vehicles, off-highway equipment, mining and agriculture where a SAE 75W-90 GL-5 is been required.

AUTOGEAR OIL MP 75W-90 is based on a high quality synthetic base oil in combination with a special additive package to ensure the following properties:

- •Good extreme pressure and anti-wear properties.
- •High thermal- and oxidation stability.
- •Effective rust, wear and corrosion protection.
- •Better low temperature provides easy start-up at low ambient temperatures.
- •Good anti-foam properties ensure film strength for effective lubrication.
- •Excellent seal compatibility.

AUTOGEAR OIL MP 75W-90 meets the following performance criteria:

API GL-5	MIL-L-2105D	MAN 342 M1	MB 235.0
Volvo 97310	ZF TE-ML 7A, 16B,	17B, 21A

AUTOGEAR OIL MP 80W-90

Product Description:

AUTOGEAR OIL MP 80W-90 is an universal high performance mineral multi purpose gear oil for use in different applications, such as; manual transmission and transaxles of passenger cars, vans, light- and heavy commercial vehicles, off-highway equipment, mining and agriculture, where a SAE 80W-90 GL-5 oil is been required.

AUTOGEAR OIL MP 80W-90 is formulated with high refined mineral base stocks in combination with a special additive technology to achieve the following performance:

- Very good protection against wear.
- Very good performance against the forming of foam and corrosion.
- Good Oxidation- and thermal stability.

AUTOGEAR OIL MP 80W-90 meets the following performance criteria:

API GL-5	MIL-L-2105D	MAN 342 M1	MAN 342 M2
MB 235.0	Volvo 1273.10	ZF TE-ML 05A, 7A	, 16B, 16C, 16D, 17B, 19B, 21A

Property	Unit	Test Method	Typical Value
SAE Grade		SAE J306	80W-90

AUTOGEAR OIL MP 85W-90

Product Description:

AUTOGEAR OIL MP 85W-90 is an universal high performance mineral multi-purpose gear oil for use in manual transmission en transaxles of passenger cars, vans, light- and heavy commercial vehicles, off-highway equipment, mining and agriculture where a SAE 85W-90 GL-5 is been required.

AUTOGEAR OIL MP 85W-90 is based on high quality mineral base oil in combination with a special additive package to ensure the following properties:

- Good thermo-oxidative stability.
- Good load bearing characteristics.
- Effective rust and corrosion protection.
- High low temperature fluidity provides smoother shifting at low ambient temperatures.
- Exceptional shear stable.

AUTOGEAR OIL MP 85W-90 meets the following performance criteria:

API GL-4/5	MB 235.6	MAN 342-M1-M2	MIL-PRF-2105D
Volvo 97310	Volvo 97316	Volvo STD 1273.21	SAE J2360

AUTOGEAR OIL SYN LS **75W-140**

Product Description:

AUTOGEAR OIL SYN LS 75W-140 is a synthetic extra high performance multi-functional gear lubricant designed to provide effective lubrication in modern high performance passenger cars, sports utility vehicles, vans and light duty trucks and "off highway" equipment equipped with both conventional and limited slip differentials. The special friction modifier used in this oil helps in reducing chatter and improving traction besides retaining the frictional properties for longer service life.

AUTOGEAR OIL SYN LS 75W-140 is formulated with high quality synthetic base oils in combination with a special additive package to reach the following properties:

- Unique additive technology allows the use of a single lubricant in rear axles, synchronised and non-synchronised manual transmissions and therefore helps in rationalisation of products.
- Exceptional thermo-oxidative stability and load bearing characteristics help in extending the life of the driveline components and the oil.
- Effective rust and corrosion protection, especially to copper and its alloys reduces wear, extends synchroniser life and improves shifting performance.
- Outstanding low temperature fluidity reduces wear at start up and provides smoother shifting at low ambient temperatures.
- Exceptional shear stability helps in retaining viscosity and film strength to protect against wear even under severe operating conditions.
- Superior frictional properties provide improved fuel economy and smoother shift ability.
- Excellent limited slip performance reduces chatter and improves traction.

AUTOGEAR OIL SYN LS 75W-140 meets the following performance criteria:

API GL-5 (LS), MT-1	MIL-PRF-2105E	MIL-L-2105D	SAE J2360	MACK GO-J
Scania STO 1:0 (Axle)	ZF TE-ML-05D	ZF TE-ML-21D	Ford M2C19	2-A

Property	Unit	Test Method	Typical Value

BRAKE FLUID DOT 4

Product Description:

BRAKE FLUID DOT 4 is a very high performance brake fluid especially designed for use in disc, drum and Anti Brake Systems (ABS) of all commercial vehicles, passenger cars and motor cycles operating under moderate to severe conditions, where a DOT 4 fluid is prescribed.

BRAKE FLUID DOT 4 should never be used in place of or mixed with silicone based brake fluids (DOT 4)

BRAKE FLUID DOT 4 is based on a Glycol-type Base fluid combination with an unique additive package to ensure the following properties:

- Superior oxidative stability resists oxidation at high temperatures encountered in disk braking systems.
- Superior high temperature stability and low temperature fluidity ensure trouble free operation.
- Effective corrosion inhibitors provide long term corrosion protection to the metallic components of the brake systems.
- Provides lubricity and system protection.
- Compatible with all seals and metals used in conventional braking systems requiring glycoltype brake fluids.

BRAKE FLUID DOT 4.0 exceeds the following performance criteria:

FMVSS-116 DOT 4.0 SAE J1704

ISO 4925

Property	Unit	Test Method	Typical Value
Density@15°C	kg/m ³	ASTM D4052	1,07
Kin. Viscosity @-40°C	mm²/s	FMVSS 116	<900
Kin. Viscosity @100°C	mm²/s	FMVSS 116	>1,5

The full text for all (R) clauses is given in section 16. The full text for all (H) and (EUH) clauses is given in section 16.

SECTION 4: First aid measures	
4.1. Description of first aid measures	

General information	Change clothes and shoes that have contaminated or spilled product.
	Never put rags contaminated by the product in clothing pockets.
Eye Contact	In case of eye contact, rinse eyes with copious amounts of water. If persistent irritation occurs, seek
Skin Contact	Remove contaminated clothing. Wash the exposed area immediately with plenty of running water and persistent irritation occurs, seek medical attention.
Breathing	It does not require treatment under normal use conditions. If symptoms such as dizziness and nause seek fresh air, if symptoms persist, seek medical attention.
Swallowing	In case of discomfort or excessive swallowing, seek medical attention immediately, the swallower sho vomiting.
Notes for the Doctor	Treatment should be applied according to the symptoms.
4.2. Most important symptoms and effe	cts, both acute and delaye
Breathing	There are no known specific symptoms.
Swallowing	There are no known specific symptoms.
Skin contact	There are no known specific symptoms.
Eye contact	There are no known specific symptoms.
4.3. Indication of need for medical atten	tion and special treatment
Information to be given to the doctor	Treat the symptoms.
Special treatments	Special treatments
SECTION 5: Fire fighting measure	

Evacuate everyone, except emergency personnel, from the fire area.

5.1 Appropriate Fire Extinguishers and Fighting Method Foam water spray, water droplets, dry chemical powder fire extinguishers can be used. Carbon dioxide extinguishers, sand and earth are suitable for small fires.

Dated 13 December 2014, numbered 29204, "T.C. It has been prepared in accordance with the provisions of the "Regulation on Safety Data Sheets Regarding Harmful Substances and Mixtures of the Ministry of Environment and Urbanization".

5.2 Unsuitable Fire Extinguishers Do not use sprinkler water extinguishing method. and Fighting method

5.3 Special Cases particles in the air. Carbon monoxide and some metal oxides. May contain unspecified organic and inorganic compounds.

5.4 Special Protective Equipment Required in Case of Fire Standard protective equipment is used. Self-contained breathing apparatus (SCBA) is used in closed areas.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions	Risk of slipping, especially where product leaks / spills.
6.2. Environmental precautions Environmental precautions	Do not allow to mix with drainage system, surface and ground water. Prevent spillage into the environment (for example: by tying or by oil kit). Do not allow it to enter the ground / ground.
6.3. Methods and materials for containment and cleaning	up
Spill clean-up methods	Clean with absorbent material (sand, diatomite, acid binder, universal binder, sawdust). Dispose of collected material in accordance with regulations.
6.4. References to other sections References to other sections	See Chapter 7 for safe use information. See section 8 for personal protection. See Chapter 13 for waste disposal.

SECTION 7: Handling and storage			
7.1 Handling	Avoid prolonged or repeated contact with skin. Wash your hands thoroughly after use. Avoid breathing		
vapor and/or mist. Protective s	hoes should be worn when transporting with products and appropriate means of transport should be used.		
7.2Storage	Store in tightly closed container. Store the packaged product in a cool, well-ventilated area.		
7.3Special Uses	There is no specifically specified information.		

Dated 13 December 2014, numbered 29204, "T.C. It has been prepared in accordance with the provisions of the "Regulation on Safety Data Sheets Regarding Harmful Substances and Mixtures of the Ministry of Environment and Urbanization".

SECTION 8: Exposure Controls/personal protection

Control Parameters

DNEL

There is no information available.

PN

There is no information available.

Exposure controls **Engineering Controls**

Effective ventilation of the working environment should be ensured against the risk of inhaling oil vapors or fumes. An air evacuation system should be available and other technical measures should be taken. All chemicals should be evaluated for their risk to health and appropriate control measures should be taken to prevent or adequately control exposure to them.

Protective equipment

Appropriate engineering controls Normal precautions should be followed when handling chemicals and mineral oil products.

Keep away from food, drink and animal feeding stuffs.

Personal protection Göz/Yüz korunması

In case of splashes or spills, wear oil- or chemical-resistant clothing for protection. Sıçrama tehlikesi yoksa, kenarlıklı kimyasal korunma gözlüğü takın.

Hand protection

Protective gloves and protective skin cream. The selection of suitable gloves depends not only on the material, but also on the brand and quality, which varies from manufacturer to manufacturer. As the product is made of several materials, the durability of the glove cannot be calculated in advance and therefore must be checked before use.

Other skin and body protection For preventive skin protection, use skin protection cream.

Health measures The product does not contain any amount of substances with critical values that require control in the workplace.

Respiratory protection In case of insufficient ventilation, suitable respiratory protection should be used

SECTION 9: Physical and Chemical Properties

9.1. Information on basic physical and chemical properties

9.1 General information

Dated 13 December 2014, numbered 29204, "T.C. It has been prepared in accordance with the provisions of the "Regulation on Safety Data Sheets Regarding Harmful Substances and Mixtures of the Ministry of Environment and Urbanization".

Information on basic physical and chemical properties

Physical Condition Appearance Colour Smell pH Soap Type Auto Ignition temperature Resolution NLGI Sınıfı Dropping Point Semi-solid Smooth Green Characteristic mineral oil not applicable Calcium the product is not self-igniting. insoluble in water 3 Min. 100

Other informations

There is no information available.

SECTION 10: Stability and reactivity

Reactivity

There are no reactive hazards associated with this product.

Chemical stability

Stable under normal storage and use conditions.

Possibility of dangerous reaction

Hazardous reactions do not occur.

Conditions to avoid

It should not be exposed to high temperatures or direct sunlight.

Materials to avoid

Igniting agents, strong oxidizers.

Dangerous separation products

The formation of harmful decomposition products is not expected during normal storage. Carbon oxides. Some metal oxides.

SECTION 11: Toxicological information	
11.1. Information on toxic effects	
Toxic effects	No available information.
Skin corrosion/irritation	
Animal data	There may be slight irritation

Dated 13 December 2014, numbered 29204, "T.C. It has been prepared in accordance with the provisions of the "Regulation on Safety Data Sheets Regarding Harmful Substances and Mixtures of the Ministry of Environment and Urbanization".

Serious eye damage/irritation	
Serious eye damage/irritation	May Be Slightly Irritated
Respiratory sensitization	
Respiratory sensitization	There is no specific test data available.
Skin sensitization	
Skin sensitization	There is no specific test data available.
Germ cell mutagenicity	
Genotoksisite - in vitro	There is no specific test data available.
Carcinogenicity	
Carcinogenicity	There is no specific test data available.
Reproductive toxicity	There is not enough information for classification.

SECTION 12: Ecological information Toxicity

Environmental hazards The product is not expected to be hazardous to the environment.

Persistence and degradability

It is not permanent, it is expected to disintegrate on its own.

Bioaccumulation potential

It is not expected to bioaccumulate in the environment via the food chain.

Mobility in the soil

It is liquid under most ambient conditions. It floats on water. It is unlikely to mix with soil.

Mobility

It is insoluble in water.

Results of PBT and vPvB assessment

It does not contain any compounds evaluated as PBT and vPvB.

Other adverse effects

Spilled product pollutes groundwater.

SECTION 13: Disposal information

Dated 13 December 2014, numbered 29204, "T.C. It has been prepared in accordance with the provisions of the "Regulation on

Safety Data Sheets Regarding Harmful Substances and Mixtures of the Ministry of Environment and Urbanization".

Waste treatment methods

Do not discharge into the environment, sewers or streams. Used product and product containers should be disposed of by licensed units in accordance with current legislation. Do not allow spilled products to enter drains and sewers.

SECTION 14: Transport information

The product is not covered by international regulations on the transport of dangerous goods. (IMDG, IATA, ADR/RID).

UN number

Not edited.

UN proper shipping name Not edited.

Transport hazard class(es) Not edited.

Packing group Not edited.

Environmental hazards

Marine pollutant

Special precautions for the user

No information available. Transport in bulk according to Annex II of MARPOL 73/78 and IBC code

No information available.

SECTION0 15: Regulatory information

15.1. Safety, health and environmental legislation specific for the substance or mixture

National regulations When using chemical or mineral oil products, normal safety regulations must be observed.

Until 2004/73/EC (31st ATP) and the Hazardous Materials Act, the product is not subject to identification rules under the EC Directives. Possibly dangerous as clearly stated in point 3 compounds concentrations are below the classification value. Local regulations must be observed.

EU legislation Regulation on the classification, labeling and packaging of substances and mixtures From the Ministry of Environment and Urbanization 11 December 2013 Official Gazette Number 28848 on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), of the European Parliament and of the Council (EC) of 18 December 2006, 1907/2006 Regulation No. (as amended).

SECTION 16: Other informations

General Information All ingredients are listed in the European Inventories. These data are based on our current knowledge. However, they are not a guarantee for specific product features and will not constitute legal validity in contractual relations. This safety data sheet is the safety data sheet according to 91/155/EU. For products that are not subject to classification according to EU lists, this table is optional.

Dated 13 December 2014, numbered 29204, "T.C. It has been prepared in accordance with the provisions of the "Regulation on Safety Data Sheets Regarding Harmful Substances and Mixtures of the Ministry of Environment and Urbanization".

Main literature references and "Regulation on Safety Data Sheets of Harmful Substances and Mixtures of the Ministry of Environment and Urbanization", dated 13 December 2014 and numbered 29204 sources of information

All hazard statements	No

Жидкость стеклоомывающая зимняя -20°С STOP GER

характеристики

- Торговая марка:Stop Ger
- Поверхность:Стекло
- Применение:для наружных работ, для внутренних работ
- Основа материала:на водной основе

СВОЙСТВА

- Благодаря особой формуле, специальным добавкам и уменьшенной концентрации обеспечивает более низкое количество паров спирта в салоне автомобиля, обладает наименее выраженным запахом по сравнению с другими жидкостями.
- Даже при низких температурах не замерзает полностью, а переходит в форму геля, благодаря чему исключается возможность повреждения контура стеклоомывающей системы, а также обеспечивается быстрое возвращение в жидкую форму после повышения температуры.
- Экономичная. Позволяет отказаться от использования более высококонцентрированных и дорогих стеклоомывающих жидкостей, концентрация которых является излишней большую часть зимнего периода в климатических условиях Республики Молдова

ОБЛАСТЬ ПРИМЕНЕНИЯ

Предназначена для использования в системе омывания стекол в зимнее время. Защищает стекло и его контур от замерзания. Способен обеспечить защиту при непродолжительном воздействии температур до -20°С. Уникальная химическая формула позволяет эффективно удалять грязь, соль и нефтяную пленку, не оставляя разводов. Жидкость безвредна для лакокрасочных покрытий и резинок стекол. Не оставляет биологических загрязнений, бликов, масляных пятен и разводов на стекле, повышая уровень безопасности управления автомобилем.

ПОДГОТОВКА ОСНОВАНИЯ

Поверхность перед нанесением должна быть сухая, очищена от пыли, грязи, жира, остатков краски и лака.

ВЫПОЛНЕНИЕ РАБОТ

Для чистки лобового стекла автомобиля заполнить бачок стеклоомывателя, для чистки боковых и задних стекол автомобиля вручную нанести омыватель на очищаемую поверхность и, не давая высохнуть, протереть до блеска. В зимнее время, при нахождении машины на открытой автостоянке, не рекомендуется разбавлять жидкость водой. В зависимости от температуры воздуха возможно разведение жидкости водой согласно установленным пропорциям. Цвет: голубой, зеленый. Аромат: зимняя свежесть, лайм.

ХРАНЕНИЕ

Хранить в течение 24 месяцев в закрытой упаковке, в недоступном для детей месте.

R-11 – легковоспламеняющийся. R39/23/24/25 – токсичен при вдыхании, при контакте с кожей и заглатывании. Опасность серьезных, необратимых последствий для здоровья. S/2 – хранить в недоступном для детей месте. S7 – хранить в закрытой упаковке. S36/37 – во время работы использовать защитные перчатки. S45 – В случае отравления срочно проконсультируйтесь у врача, показывая упаковку или этикетку.

УПАКОВКА

5,0 л

ТЕХНИЧЕСКИЕ ХАРАКТЕРИСТИКИ

СОСТАВ: Изопропиловый спирт / гидроокись метила, очищенная вода, поверхностно-активные вещества, функциональные добавки, ароматизаторы, красители

Product Data Sheet COMPRESSOR OIL VDL 32

Product Description:

COMPRESSOR OIL VDL 32 is a high performance ash less air compressor oil specially designed to meet the stringent requirements of major compressor manufacturers. **COMPRESSOR OIL VDL 32** is suited for reciprocating air-, rotary screw and vane compressors. Also used in circulating oil systems, plain and rolling element bearings, lightly loaded Gear sets, etc.

COMPRESSOR OIL VDL 32 is based on high quality mineral base oil in combination with an unique additive package to ensure the following properties:

- Excellent thermo- and oxidation stability.
- Improved equipment reliability, availability and efficiency.
- Low ash and carbon forming tendency ensures improved valve performance.
- Reduced potential for fires and explosions in the discharge systems.
- Exceptional wear and rust protection.
- Superior demulsibility reduces oil carryover and corrosion, maintains lubrication efficiency.
- Reduces sludge formation and improves life of coalesces.

COMPRESSOR OIL VDL 32 exceeds the following performance criteria:

DIN 51506 VBL/VCL/VDL ISO 6743 DAA/DAB/DAG/DAH DIN 51503-1 KAA/KE

Property	Unit	Test Method	Typical Value
ISO VG Class			32
Density @15°C	kg/m ³	ASTM D4052	850.6

77 B.V. | Van Ewijckskade 1C

Product Description:

COOLANT RTU 40 is a silicate, amine-, nitrites- and phosphates free ready to use coolant (50% diluted) providing frost and corrosion protection. For the perfect operation of water-cooled internal combustion engines.

COOLANT RTU 40 is based mono ethylene glycol in combination with a powerful additive technology to obtain the following benefits:

- Corrosion protection, also for non-ferro metals.
- Frost protection.
- Boling protection.
- Seal compatibility.

COOLANT RTU 40 meets the following performance criteria:

British Standard (BS) 6580 CUNA NC 956-16

Property	Unit	Test Method	Typical Value
Color			Blue
Density @15°C	kg/l	ASTM D5931	1.060
Equilibrium Boiling Point	°C	ASTM D1120	>125
Reserve Alkalinity (pH 5.5)		ASTM D1121	3.0
Refractive Index, 20°C		ASTM D1218	1.435
Freezing Protection	°C	ASTM D1177	-26

Product Nr: 43960 **Date Superseded:** 29-05-2018 Date Issued: 08-11-2011 Revision nr: 02

Product Data Sheet COOLANT **RTU G12 PLUS**

Product Description:

COOLANT RTU G 12 PLUS is a Ready-To-Use long life silicate-, amine-, nitrite-, borate- and phosphates free coolant to be used as a cooling and heat transferring fluid in combustion engines.

COOLANT RTU G 12 PLUS should be used <u>undiluted</u>, only then the coolant gives a protection to -40°C.

COOLANT RTU G 12 PLUS is based on ethylene glycol and in combination of a patent silicate free aliphatic additive technology to obtain the following properties:

- Extended life.
- Environmentally friendly.
- Reliability.
- Excellent corrosion protection for aluminium heat transfer surfaces.
- Excellent cavitation protection.
- Improved heat transfer.
- Improved hard water stability; absence of silicates and phosphates.
- Suitable for mixed fleets; 1 coolant for automotive and heavy duty applications.

COOLANT RTU G 12 PLUS offers strong protection: up to 650.000 km for buses and trucks, 250.000 km for passenger vehicles and up to 16.000 hours for steady-state engines. It is recommended to change the coolant every five years or at above mileages or operating times, whichever comes first. Perfectly mixable with other cooling fluids based on Ethylene Glycol.

COOLANT RTU G 12 PLUS exceeds the following performance criteria:

ENGINE OIL HDX 10W-40

Product Description:

Engine Oil HDX 10W-40 is a extra high performance universal semi synthetic engine oil designed for high loaded diesel engines in light- and heavy commercial vehicles working under severe operating conditions through the whole year for use in Euro-3, Euro-4 and Euro-5 engines equipped with EGR and/or SCR. This product is not suitable for vehicles equipped with DPF filters.

Engine Oil HDX 10W-40 is formulated with high refined solvent mineral and synthetic base stock in combination with a special additive package to reach the following properties:

- Excellent thermal- and oxidation stability.
- Very good dispersancy and detergency.
- High anti-foam, anti-wear and anti-corrosion properties.
- Excellent protection against Bore Polishing.
- Extended drain intervals.

ENGINE OIL HDX 10W-40 meets the following performance criteria:

Approved	MB Approval 228.3	Volvo VDS-3	Renault RLD-2	MACK EO-N

EP GREASE

Product Description:

EP GREASE NLGI 00 is a high quality multipurpose lithium thickened EP-00 grease suited for automotive, agriculture and industrial applications. **EP GREASE NLGI 00** is suitable in centralized lubrication systems that require semi-fluid grease

EP GREASE NLGI 00 is based on high quality mineral base oil in combination with an unique additive package to ensure the following properties:

- Excellent resistance to humidity, preventing that moisture reaches the metal surfaces that need to be lubricated.
- High anti-corrosion, antioxidant and anti-rust capacity.
- High adhesion and smoothness.
- Excellent pumpability.

Temp Range: Continuous operation: -30°C to + 100°C. Short periods maximum +120°C

EP GREASE NLGI 00 exceeds the following performance criteria:

KP00G-30 L-XCEB-00

Property	Unit	Test Method	Typical Value
NLGI Grade		ASTM D217	00
Thickener type			Lithium
Color		Visual	Amber
Dropping Point	°C	IP 396	>180
Base Oil Viscosity @40°C	mm²/s	ISO 12058	220
4-Ball Weld Load	Ν	DIN 51350-4	2450
Water resistance, 3h, 90 °C		DIN 51807	1

Product Nr: 43980 **Date Superseded:** 22-10-2011 **Date Issued:** 16-12-2019 **Revision nr:** 02

AUTOGEAR OIL SYN LS **75W-140**

Product Description:

AUTOGEAR OIL SYN LS 75W-140 is a synthetic extra high performance multi-functional gear lubricant designed to provide effective lubrication in modern high performance passenger cars, sports utility vehicles, vans and light duty trucks and "off highway" equipment equipped with both conventional and limited slip differentials. The special friction modifier used in this oil helps in reducing chatter and improving traction besides retaining the frictional properties for longer service life.

AUTOGEAR OIL SYN LS 75W-140 is formulated with high quality synthetic base oils in combination with a special additive package to reach the following properties:

- Unique additive technology allows the use of a single lubricant in rear axles, synchronised and non-synchronised manual transmissions and therefore helps in rationalisation of products.
- Exceptional thermo-oxidative stability and load bearing characteristics help in extending the life of the driveline components and the oil.
- Effective rust and corrosion protection, especially to copper and its alloys reduces wear, extends synchroniser life and improves shifting performance.
- Outstanding low temperature fluidity reduces wear at start up and provides smoother shifting at low ambient temperatures.
- Exceptional shear stability helps in retaining viscosity and film strength to protect against wear even under severe operating conditions.
- Superior frictional properties provide improved fuel economy and smoother shift ability.
- Excellent limited slip performance reduces chatter and improves traction.

AUTOGEAR OIL SYN LS 75W-140 meets the following performance criteria:

API GL-5 (LS), MT-1	MIL-PRF-2105E	MIL-L-2105D	SAE J2360	MACK GO-J
Scania STO 1:0 (Axle)	ZF TE-ML-05D	ZF TE-ML-21D	Ford M2C19	2-A

Property	Unit	Test Method	Typical Value

Product Nr: 43370 **Date Superseded:** 21-02-2018 **Date Issued:** 13-12-2019 **Revision nr:** 02

BRAKE FLUID DOT 4

Product Description:

BRAKE FLUID DOT 4 is a very high performance brake fluid especially designed for use in disc, drum and Anti Brake Systems (ABS) of all commercial vehicles, passenger cars and motor cycles operating under moderate to severe conditions, where a DOT 4 fluid is prescribed.

BRAKE FLUID DOT 4 should never be used in place of or mixed with silicone based brake fluids (DOT 4)

BRAKE FLUID DOT 4 is based on a Glycol-type Base fluid combination with an unique additive package to ensure the following properties:

- Superior oxidative stability resists oxidation at high temperatures encountered in disk braking systems.
- Superior high temperature stability and low temperature fluidity ensure trouble free operation.
- Effective corrosion inhibitors provide long term corrosion protection to the metallic components of the brake systems.
- Provides lubricity and system protection.
- Compatible with all seals and metals used in conventional braking systems requiring glycoltype brake fluids.

BRAKE FLUID DOT 4.0 exceeds the following performance criteria:

FMVSS-116 DOT 4.0 SAE J1704

ISO 4925

Property	Unit	Test Method	Typical Value
Density@15°C	kg/m ³	ASTM D4052	1,07
Kin. Viscosity @-40°C	mm²/s	FMVSS 116	<900
Kin. Viscosity @100°C	mm²/s	FMVSS 116	>1,5

SECTION 4: First aid measures	
4.1. Description of first aid measures	

General information	Change clothes and shoes that have contaminated or spilled product.
	Never put rags contaminated by the product in clothing pockets.
Eye Contact	In case of eye contact, rinse eyes with copious amounts of water. If persistent irritation occurs, seek
Skin Contact	Remove contaminated clothing. Wash the exposed area immediately with plenty of running water and persistent irritation occurs, seek medical attention.
Breathing	It does not require treatment under normal use conditions. If symptoms such as dizziness and nause seek fresh air, if symptoms persist, seek medical attention.
Swallowing	In case of discomfort or excessive swallowing, seek medical attention immediately, the swallower sho vomiting.
Notes for the Doctor	Treatment should be applied according to the symptoms.
4.2. Most important symptoms and effe	cts, both acute and delaye
Breathing	There are no known specific symptoms.
Swallowing	There are no known specific symptoms.
Skin contact	There are no known specific symptoms.
Eye contact	There are no known specific symptoms.
4.3. Indication of need for medical atten	tion and special treatment
Information to be given to the doctor	Treat the symptoms.
Special treatments	Special treatments
SECTION 5: Fire fighting measure	

Evacuate everyone, except emergency personnel, from the fire area.

5.1 Appropriate Fire Extinguishers and Fighting Method Foam water spray, water droplets, dry chemical powder fire extinguishers can be used. Carbon dioxide extinguishers, sand and earth are suitable for small fires.

Dated 13 December 2014, numbered 29204, "T.C. It has been prepared in accordance with the provisions of the "Regulation on Safety Data Sheets Regarding Harmful Substances and Mixtures of the Ministry of Environment and Urbanization".

5.2 Unsuitable Fire Extinguishers Do not use sprinkler water extinguishing method. and Fighting method

5.3 Special Cases particles in the air. Carbon monoxide and some metal oxides. May contain unspecified organic and inorganic compounds.

5.4 Special Protective Equipment Required in Case of Fire Standard protective equipment is used. Self-contained breathing apparatus (SCBA) is used in closed areas.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions	Risk of slipping, especially where product leaks / spills.
6.2. Environmental precautions Environmental precautions	Do not allow to mix with drainage system, surface and ground water. Prevent spillage into the environment (for example: by tying or by oil kit). Do not allow it to enter the ground / ground.
6.3. Methods and materials for containment and cleaning	up
Spill clean-up methods	Clean with absorbent material (sand, diatomite, acid binder, universal binder, sawdust). Dispose of collected material in accordance with regulations.
6.4. References to other sections References to other sections	See Chapter 7 for safe use information. See section 8 for personal protection. See Chapter 13 for waste disposal.

SECTION 7: Handling and storage			
7.1 Handling	Avoid prolonged or repeated contact with skin. Wash your hands thoroughly after use. Avoid breathing		
vapor and/or mist. Protective s	hoes should be worn when transporting with products and appropriate means of transport should be used.		
7.2Storage	Store in tightly closed container. Store the packaged product in a cool, well-ventilated area.		
7.3Special Uses	There is no specifically specified information.		

Dated 13 December 2014, numbered 29204, "T.C. It has been prepared in accordance with the provisions of the "Regulation on Safety Data Sheets Regarding Harmful Substances and Mixtures of the Ministry of Environment and Urbanization".

SECTION 8: Exposure Controls/personal protection

Control Parameters

DNEL

There is no information available.

PN

There is no information available.

Exposure controls **Engineering Controls**

Effective ventilation of the working environment should be ensured against the risk of inhaling oil vapors or fumes. An air evacuation system should be available and other technical measures should be taken. All chemicals should be evaluated for their risk to health and appropriate control measures should be taken to prevent or adequately control exposure to them.

Protective equipment

Appropriate engineering controls Normal precautions should be followed when handling chemicals and mineral oil products.

Keep away from food, drink and animal feeding stuffs.

Personal protection Göz/Yüz korunması

In case of splashes or spills, wear oil- or chemical-resistant clothing for protection. Sıçrama tehlikesi yoksa, kenarlıklı kimyasal korunma gözlüğü takın.

Hand protection

Protective gloves and protective skin cream. The selection of suitable gloves depends not only on the material, but also on the brand and quality, which varies from manufacturer to manufacturer. As the product is made of several materials, the durability of the glove cannot be calculated in advance and therefore must be checked before use.

Other skin and body protection For preventive skin protection, use skin protection cream.

Health measures The product does not contain any amount of substances with critical values that require control in the workplace.

Respiratory protection In case of insufficient ventilation, suitable respiratory protection should be used

SECTION 9: Physical and Chemical Properties

9.1. Information on basic physical and chemical properties

9.1 General information

Dated 13 December 2014, numbered 29204, "T.C. It has been prepared in accordance with the provisions of the "Regulation on Safety Data Sheets Regarding Harmful Substances and Mixtures of the Ministry of Environment and Urbanization".

Information on basic physical and chemical properties

Physical Condition Appearance Colour Smell pH Soap Type Auto Ignition temperature Resolution NLGI Sınıfı Dropping Point Semi-solid Smooth Green Characteristic mineral oil not applicable Calcium the product is not self-igniting. insoluble in water 3 Min. 100

Other informations

There is no information available.

SECTION 10: Stability and reactivity

Reactivity

There are no reactive hazards associated with this product.

Chemical stability

Stable under normal storage and use conditions.

Possibility of dangerous reaction

Hazardous reactions do not occur.

Conditions to avoid

It should not be exposed to high temperatures or direct sunlight.

Materials to avoid

Igniting agents, strong oxidizers.

Dangerous separation products

The formation of harmful decomposition products is not expected during normal storage. Carbon oxides. Some metal oxides.

SECTION 11: Toxicological information	
11.1. Information on toxic effects	
Toxic effects	No available information.
Skin corrosion/irritation	
Animal data	There may be slight irritation

Dated 13 December 2014, numbered 29204, "T.C. It has been prepared in accordance with the provisions of the "Regulation on Safety Data Sheets Regarding Harmful Substances and Mixtures of the Ministry of Environment and Urbanization".

Serious eye damage/irritation	
Serious eye damage/irritation	May Be Slightly Irritated
Respiratory sensitization	
Respiratory sensitization	There is no specific test data available.
Skin sensitization	
Skin sensitization	There is no specific test data available.
Germ cell mutagenicity	
Genotoksisite - in vitro	There is no specific test data available.
Carcinogenicity	
Carcinogenicity	There is no specific test data available.
Reproductive toxicity	There is not enough information for classification.

SECTION 12: Ecological information Toxicity

Environmental hazards The product is not expected to be hazardous to the environment.

Persistence and degradability

It is not permanent, it is expected to disintegrate on its own.

Bioaccumulation potential

It is not expected to bioaccumulate in the environment via the food chain.

Mobility in the soil

It is liquid under most ambient conditions. It floats on water. It is unlikely to mix with soil.

Mobility

It is insoluble in water.

Results of PBT and vPvB assessment

It does not contain any compounds evaluated as PBT and vPvB.

Other adverse effects

Spilled product pollutes groundwater.

SECTION 13: Disposal information

Dated 13 December 2014, numbered 29204, "T.C. It has been prepared in accordance with the provisions of the "Regulation on

Safety Data Sheets Regarding Harmful Substances and Mixtures of the Ministry of Environment and Urbanization".

Waste treatment methods

Do not discharge into the environment, sewers or streams. Used product and product containers should be disposed of by licensed units in accordance with current legislation. Do not allow spilled products to enter drains and sewers.

SECTION 14: Transport information

The product is not covered by international regulations on the transport of dangerous goods. (IMDG, IATA, ADR/RID).

UN number

Not edited.

UN proper shipping name Not edited.

Transport hazard class(es) Not edited.

Packing group Not edited.

Environmental hazards

Marine pollutant

Special precautions for the user

No information available. Transport in bulk according to Annex II of MARPOL 73/78 and IBC code

No information available.

SECTION0 15: Regulatory information

15.1. Safety, health and environmental legislation specific for the substance or mixture

National regulations When using chemical or mineral oil products, normal safety regulations must be observed.

Until 2004/73/EC (31st ATP) and the Hazardous Materials Act, the product is not subject to identification rules under the EC Directives. Possibly dangerous as clearly stated in point 3 compounds concentrations are below the classification value. Local regulations must be observed.

EU legislation Regulation on the classification, labeling and packaging of substances and mixtures From the Ministry of Environment and Urbanization 11 December 2013 Official Gazette Number 28848 on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), of the European Parliament and of the Council (EC) of 18 December 2006, 1907/2006 Regulation No. (as amended).

SECTION 16: Other informations

General Information All ingredients are listed in the European Inventories. These data are based on our current knowledge. However, they are not a guarantee for specific product features and will not constitute legal validity in contractual relations. This safety data sheet is the safety data sheet according to 91/155/EU. For products that are not subject to classification according to EU lists, this table is optional.

Dated 13 December 2014, numbered 29204, "T.C. It has been prepared in accordance with the provisions of the "Regulation on Safety Data Sheets Regarding Harmful Substances and Mixtures of the Ministry of Environment and Urbanization".

Main literature references and "Regulation on Safety Data Sheets of Harmful Substances and Mixtures of the Ministry of Environment and Urbanization", dated 13 December 2014 and numbered 29204 sources of information

All risk statements	No
All hazard statements	No

Product Data Sheet COMPRESSOR OIL VDL 32

Product Description:

COMPRESSOR OIL VDL 32 is a high performance ash less air compressor oil specially designed to meet the stringent requirements of major compressor manufacturers. **COMPRESSOR OIL VDL 32** is suited for reciprocating air-, rotary screw and vane compressors. Also used in circulating oil systems, plain and rolling element bearings, lightly loaded Gear sets, etc.

COMPRESSOR OIL VDL 32 is based on high quality mineral base oil in combination with an unique additive package to ensure the following properties:

- Excellent thermo- and oxidation stability.
- Improved equipment reliability, availability and efficiency.
- Low ash and carbon forming tendency ensures improved valve performance.
- Reduced potential for fires and explosions in the discharge systems.
- Exceptional wear and rust protection.
- Superior demulsibility reduces oil carryover and corrosion, maintains lubrication efficiency.
- Reduces sludge formation and improves life of coalesces.

COMPRESSOR OIL VDL 32 exceeds the following performance criteria:

DIN 51506 VBL/VCL/VDL ISO 6743 DAA/DAB/DAG/DAH DIN 51503-1 KAA/KE

Property	Unit	Test Method	Typical Value
ISO VG Class			32
Density @15°C	kg/m ³	ASTM D4052	850.6
Kin. Viscosity @40°C	mm²/s	ASTM D7042	32.0

Product Nr: 43790 Date Superseded: 30-9-2021 Date Issued: 8-1-2025 Revision nr: 05

77 B.V. | Van Ewijckskade 1C

Product Description:

COOLANT RTU 40 is a silicate, amine-, nitrites- and phosphates free ready to use coolant (50% diluted) providing frost and corrosion protection. For the perfect operation of water-cooled internal combustion engines.

COOLANT RTU 40 is based mono ethylene glycol in combination with a powerful additive technology to obtain the following benefits:

- Corrosion protection, also for non-ferro metals.
- Frost protection.
- Boling protection.
- Seal compatibility.

COOLANT RTU 40 meets the following performance criteria:

British Standard (BS) 6580 CUNA NC 956-16

Property	Unit	Test Method	Typical Value
Color			Blue
Density @15°C	kg/l	ASTM D5931	1.060
Equilibrium Boiling Point	°C	ASTM D1120	>125
Reserve Alkalinity (pH 5.5)		ASTM D1121	3.0
Refractive Index, 20°C		ASTM D1218	1.435
Freezing Protection	°C	ASTM D1177	-26

Product Data Sheet COOLANT **RTU G12 PLUS**

Product Description:

COOLANT RTU G 12 PLUS is a Ready-To-Use long life silicate-, amine-, nitrite-, borate- and phosphates free coolant to be used as a cooling and heat transferring fluid in combustion engines.

COOLANT RTU G 12 PLUS should be used <u>undiluted</u>, only then the coolant gives a protection to -40°C.

COOLANT RTU G 12 PLUS is based on ethylene glycol and in combination of a patent silicate free aliphatic additive technology to obtain the following properties:

- Extended life.
- Environmentally friendly.
- Reliability.
- Excellent corrosion protection for aluminium heat transfer surfaces.
- Excellent cavitation protection.
- Improved heat transfer.
- Improved hard water stability; absence of silicates and phosphates.
- Suitable for mixed fleets; 1 coolant for automotive and heavy duty applications.

COOLANT RTU G 12 PLUS offers strong protection: up to 650.000 km for buses and trucks, 250.000 km for passenger vehicles and up to 16.000 hours for steady-state engines. It is recommended to change the coolant every five years or at above mileages or operating times, whichever comes first. Perfectly mixable with other cooling fluids based on Ethylene Glycol.

COOLANT RTU G 12 PLUS exceeds the following performance criteria:

ENGINE OIL HDX 10W-40

Product Description:

Engine Oil HDX 10W-40 is a extra high performance universal semi synthetic engine oil designed for high loaded diesel engines in light- and heavy commercial vehicles working under severe operating conditions through the whole year for use in Euro-3, Euro-4 and Euro-5 engines equipped with EGR and/or SCR. This product is not suitable for vehicles equipped with DPF filters.

Engine Oil HDX 10W-40 is formulated with high refined solvent mineral and synthetic base stock in combination with a special additive package to reach the following properties:

- Excellent thermal- and oxidation stability.
- Very good dispersancy and detergency.
- High anti-foam, anti-wear and anti-corrosion properties.
- Excellent protection against Bore Polishing.
- Extended drain intervals.

ENGINE OIL HDX 10W-40 meets the following performance criteria:

Approved	MB Approval 228.3	Volvo VDS-3	Renault RLD-2	MACK EO-N

EP GREASE

Product Description:

EP GREASE NLGI 00 is a high quality multipurpose lithium thickened EP-00 grease suited for automotive, agriculture and industrial applications. **EP GREASE NLGI 00** is suitable in centralized lubrication systems that require semi-fluid grease

EP GREASE NLGI 00 is based on high quality mineral base oil in combination with an unique additive package to ensure the following properties:

- Excellent resistance to humidity, preventing that moisture reaches the metal surfaces that need to be lubricated.
- High anti-corrosion, antioxidant and anti-rust capacity.
- High adhesion and smoothness.
- Excellent pumpability.

Temp Range: Continuous operation: -30°C to + 100°C. Short periods maximum +120°C

EP GREASE NLGI 00 exceeds the following performance criteria:

KP00G-30 L-XCEB-00

Property	Unit	Test Method	Typical Value
NLGI Grade		ASTM D217	00

MONO ENGINE OIL CF

Product Description:

MONO ENGINE OIL CF 30 is a heavy duty diesel engine oil developed to meet the requirements of a variety of diesel engines operating under severe conditions.

MONO ENGINE OIL CF 30 is suitable for use in a wide range of on- and off-highway applications where an API CF oil is recommended.

MONO ENGINE OIL CF 30 is based on high quality refined virgin base oil in combination with a special additive package to ensure the following properties:

- High thermal and oxidation stability.
- Effective in preventing from wear, corrosion and foam.
- High dispersancy and detergency properties.

MONO ENGINE OIL CF 30 meets the following performance criteria:

API SF/CF	MTU Type 2	CCMC G2/D1	MIL-L-46152

MOTOR OIL SF **15W-40**

Product Description:

MOTOR OIL SF 15W-40 is a multi functional mineral engine oil for older gasoline-, dieseland LGP engines of passenger car and light vans with or without turbo compressor. MOTOR OIL SF 15W-40 is not suited for engines equipped with a Diesel Particulate Filter (DPF).

MOTOR OIL SF 15W-40 is formulated with special selected base stocks in combination with unique additive package to reach the following properties:

- Stable viscosity index.
- Good protection against rust, corrosion and wear.
- Good dispergency and detergency properties.
- Good antifoam properties.

MOTOR OIL SF 15W-40 exceeds the following performance criteria:

API SF/CD

MOTOR OIL SYNTHETIC **10W-40**

Product Description:

MOTOR OIL SYNTHETIC 10W-40 is an universal high performance fuel saving synthetic oil for use in gasoline- and diesel engines of passenger car and light vans with or without turbocharger. This product is unsuitable for diesel engines equipped with a Diesel Particulate Filter (DPF).

MOTOR OIL SYNTHETIC 10W-40 is formulated with high quality synthetic base stock in combination with a special additive technology to achieve the following performance:

- Very good low temperature properties.
- Protection to wear by cold start.
- Very high thermal- and oxidation stability.
- Excellent resistance against foaming, corrosion and wear.
- High dispersancy and detergency level.
- High viscosity index.

MOTOR OIL SYNTHETIC 10W-40 exceeds the following performance criteria:

Product Data Sheet MOTORCYCLE OIL 2T EXTRA

Product Description:

API TC

MOTORCYCLE OIL 2T EXTRA is a high quality semi-synthetic lubricant specially developed for high powered 2-stroke air and water cooled gasoline engines fitted with oil-injection or premix systems.

MOTORCYCLE OIL 2T EXTRA is based on a high quality virgin and synthetic base oils in combination with a special selected additive package to obtain the following properties:

- Outstanding protection against piston scuffing and premature wear of engine components.
- Excellent control against engine deposits, exhaust system blocking.
- Extended engine life without power loss.

JASO FD

- Low ash additive technology prevents pre-ignition and spark plug fouling.
- Specially selected synthetic base fluid reduces visible exhaust smoke.

• Easy miscibility with gasoline ensures stable homogeneous mixture even at low ambient temperatures.

MOTORCYCLE OIL 2T EXTRA exceeds the following performance criteria:

ISO-L-EGD

Product Data Sheet SUPER TRACTOR OIL **10W-30**

Product Description:

SUPER TRACTOR OIL 10W-30 is a high quality universal mineral based so called "Super Tractor Oil Universal" (STOU) developed for use in tractors, combines, harvesters and off the road equipment with or without turbocharger diesel engines. Super Tractor Oil Universal is also designed to lubricate the transmission, power take-off, final drive, hydraulic system and oil immersed "wet brakes". This product cannot been used in diesel engines equipped with a Diesel Particulate Filter (DPF).

SUPER TRACTOR OIL 10W-30 is formulated on high refined solvent mineral base stock in combination with an unique additive package to reach the following properties;

- Excellent thermal- and oxidation stability.
- Very good dispersancy and detergency.
- Excellent cold start properties.
- High anti-foam, anti-wear and anti-corrosion properties.
- Suitable for Wet Brakes.

SUPER TRACTOR OIL 10W-30 exceeds the following performance criteria:

Engine Spec: API CG-4/CF-4/CE/SF MB 227.1 ACEA E3 STOU/UTTO Spec: JD J27, J20C Ford M2C159B/C MF M 1145 Ford M2C134A,C,D FNH 82009201,2,3 Ford M2C86C Case 1206,1209 MF M 1135/ 1139 MF M 1143/1144 Allison C-4 Caterpillar TO-2 API GL-4 CNH MAT 3525,3526 NH 030C NH 024C ZF TE-ML 06A,B,C,R,07B NH 420A NH 410B Eaton I-280-S Hydr. Product Description:

ATF DX III is a high quality universal fluid to be used in automatic transmission, torque convertors and power steering of passenger car, light vans and commercial vehicles.

ATF DX III is formulated on high refined solvent mineral and synthetic base stock in combination with an unique additive package to reach the following properties.

- Excellent thermal- and oxidation stability.
- Special friction modifiers.
- Very high viscosity Index.
- Low pourpoint.
- Excellent shifting at very low and high temperatures.
- Excellent protection against the forming corrosion, foam and wear.

ATF DX III meets the following performance criteria:

DEXRON III H	Allison C4	MAN 339 V1/Z1	MB 236.9

ATF MV

Product Description:

ATF MV is a high quality synthetic fluid specially designed with advanced multi-vehicle additive technology to serve a broad range of. ATF MV exceeds the complex requirements of Automatic Transmission/ Vehicle Manufacturers of Europe, North America and Asia including the JASO 1-A performance standard created by Japanese Automobile Manufacturers Association.

Remark: Not suitable for use in Continuously Variable Transmissions (CVT), Dual Clutch Transmission (DCT), Daimler MB 7 speed (NAG 2), ZF 6 Speed.

ATF MV is based on fully synthetic base in combination with an unique additive package to ensure the following properties:

- Excellent thermo- and oxidation stability.
- Excellent lubrication, even under extreme conditions.
- Very high protection against wear, corrosion and foam.
- High "shear stable".
- Very low Pour point, can be used by very cold temperatures.
- High Viscosity Index.

ATF MV exceeds the following performance criteria:

Allison C4, TES 295 ATF Chrysler +3, +4	LT 71141, LA 2634 Ford Mercon	ETL -7045E, 8072B Ford Mercon V	Chrysler AS68RC Dexron IID, IIIG/H

Product Data Sheet AUTOGEAR OIL MP **75W-90**

Product Description:

AUTOGEAR OIL MP 75W-90 is a universal high performance multi-purpose gear oil for use in differentials, axles and some transmissions of passenger cars, vans, light- and heavy commercial vehicles, off-highway equipment, mining and agriculture where a SAE 75W-90 GL-5 is been required.

AUTOGEAR OIL MP 75W-90 is based on a high quality synthetic base oil in combination with a special additive package to ensure the following properties:

- •Good extreme pressure and anti-wear properties.
- •High thermal- and oxidation stability.
- •Effective rust, wear and corrosion protection.
- •Better low temperature provides easy start-up at low ambient temperatures.
- •Good anti-foam properties ensure film strength for effective lubrication.
- •Excellent seal compatibility.

AUTOGEAR OIL MP 75W-90 meets the following performance criteria:

API GL-5	MIL-L-2105D	MAN 342 M1	MB 235.0
Volvo 97310	ZF TE-ML 7A, 16B,	17B, 21A

AUTOGEAR OIL MP 80W-90

Product Description:

AUTOGEAR OIL MP 80W-90 is an universal high performance mineral multi purpose gear oil for use in different applications, such as; manual transmission and transaxles of passenger cars, vans, light- and heavy commercial vehicles, off-highway equipment, mining and agriculture, where a SAE 80W-90 GL-5 oil is been required.

AUTOGEAR OIL MP 80W-90 is formulated with high refined mineral base stocks in combination with a special additive technology to achieve the following performance:

- Very good protection against wear.
- Very good performance against the forming of foam and corrosion.
- Good Oxidation- and thermal stability.

AUTOGEAR OIL MP 80W-90 meets the following performance criteria:

API GL-5	MIL-L-2105D	MAN 342 M1	MAN 342 M2
MB 235.0	Volvo 1273.10	ZF TE-ML 05A, 7A	, 16B, 16C, 16D, 17B, 19B, 21A

AUTOGEAR OIL MP 85W-90

Product Description:

AUTOGEAR OIL MP 85W-90 is an universal high performance mineral multi-purpose gear oil for use in manual transmission en transaxles of passenger cars, vans, light- and heavy commercial vehicles, off-highway equipment, mining and agriculture where a SAE 85W-90 GL-5 is been required.

AUTOGEAR OIL MP 85W-90 is based on high quality mineral base oil in combination with a special additive package to ensure the following properties:

- Good thermo-oxidative stability.
- Good load bearing characteristics.
- Effective rust and corrosion protection.
- High low temperature fluidity provides smoother shifting at low ambient temperatures.
- Exceptional shear stable.

AUTOGEAR OIL MP 85W-90 meets the following performance criteria:

API GL-4/5	MB 235.6	MAN 342-M1-M2	MIL-PRF-2105D
Volvo 97310	Volvo 97316	Volvo STD 1273.21	SAE J2360

Product Data Sheet HYDRAULIC OIL HM 46

Product Description:

HYDRAULIC OIL HM 46 is a universal mineral high grade EP oil for use in heavy duty hydraulic systems and light duty gearboxes, bearings and general lubrication. Not suitable for turbine application.

HYDRAULIC OIL HM 46 is formulated with high quality refined mineral base stocks in combination with a special EP-additive technology to achieve the following performance:

- Excellent stability against oxidation.
- Very good protection against wear.
- Good water demulsibility.
- Very good foaming properties.
- Very effective to rust and corrosion.

HYDRAULIC OIL HM 46 exceeds the following performance criteria.:

MONO ENGINE OIL CF

Product Description:

MONO ENGINE OIL CF 30 is a heavy duty diesel engine oil developed to meet the requirements of a variety of diesel engines operating under severe conditions.

MONO ENGINE OIL CF 30 is suitable for use in a wide range of on- and off-highway applications where an API CF oil is recommended.

MONO ENGINE OIL CF 30 is based on high quality refined virgin base oil in combination with a special additive package to ensure the following properties:

- High thermal and oxidation stability.
- Effective in preventing from wear, corrosion and foam.
- High dispersancy and detergency properties.

MONO ENGINE OIL CF 30 meets the following performance criteria:

API SF/CF	MTU Type 2	CCMC G2/D1	MIL-L-46152

MOTOR OIL SF **15W-40**

Product Description:

MOTOR OIL SF 15W-40 is a multi functional mineral engine oil for older gasoline-, dieseland LGP engines of passenger car and light vans with or without turbo compressor. MOTOR OIL SF 15W-40 is not suited for engines equipped with a Diesel Particulate Filter (DPF).

MOTOR OIL SF 15W-40 is formulated with special selected base stocks in combination with unique additive package to reach the following properties:

- Stable viscosity index.
- Good protection against rust, corrosion and wear.
- Good dispergency and detergency properties.
- Good antifoam properties.

MOTOR OIL SF 15W-40 exceeds the following performance criteria:

API SF/CD

MOTOR OIL SYNTHETIC **10W-40**

Product Description:

MOTOR OIL SYNTHETIC 10W-40 is an universal high performance fuel saving synthetic oil for use in gasoline- and diesel engines of passenger car and light vans with or without turbocharger. This product is unsuitable for diesel engines equipped with a Diesel Particulate Filter (DPF).

MOTOR OIL SYNTHETIC 10W-40 is formulated with high quality synthetic base stock in combination with a special additive technology to achieve the following performance:

- Very good low temperature properties.
- Protection to wear by cold start.
- Very high thermal- and oxidation stability.
- Excellent resistance against foaming, corrosion and wear.
- High dispersancy and detergency level.
- High viscosity index.

Product Description:

SUPER TRACTOR OIL 10W-30 is a high quality universal mineral based so called "Super Tractor Oil Universal" (STOU) developed for use in tractors, combines, harvesters and off the road equipment with or without turbocharger diesel engines. Super Tractor Oil Universal is also designed to lubricate the transmission, power take-off, final drive, hydraulic system and oil immersed "wet brakes". This product cannot been used in diesel engines equipped with a Diesel Particulate Filter (DPF).

SUPER TRACTOR OIL 10W-30 is formulated on high refined solvent mineral base stock in combination with an unique additive package to reach the following properties;

- Excellent thermal- and oxidation stability.
- Very good dispersancy and detergency.
- Excellent cold start properties.
- High anti-foam, anti-wear and anti-corrosion properties.
- Suitable for Wet Brakes.

SUPER TRACTOR OIL 10W-30 exceeds the following performance criteria:

Engine Spec: API CG-4/CF-4/CE/SF MB 227.1 ACEA E3 STOU/UTTO Spec: JD J27, J20C Ford M2C159B/C MF M 1145 Ford M2C134A,C,D FNH 82009201,2,3 Ford M2C86C Case 1206,1209 MF M 1135/ 1139 MF M 1143/1144 Allison C-4 Caterpillar TO-2 API GL-4 CNH MAT 3525,3526 NH 030C NH 024C ZF TE-ML 06A,B,C,R,07B NH 420A NH 410B Eaton I-280-S Hydr.
