

To whom it may concern:

My name is Irina Tolstousov, and I represent the Invest Moldova Agency, being in charge of the Country Brand promotion department. It is my pleasure to write this letter of recommendation for PNA Software SRL. In my years at the Invest Moldova Agency, it has been rare to find a team as talented and dedicated as PNA Software.

We worked together on the presentation and graphical design on a series of crucial presentations for Moldova's Free Economic Zones (FEZ). The executing team was very thorough and focused on delivering a superior user experience by enhancing the presentation with graphics that made the information presented easier to digest and understand for the average user.

I would like to point out the efficient communications between our teams, where all our ideas and feedback was incorporated in the final design of the product. We never experienced a delay in communications and always felt like the team took their time to understand our needs. They are team players showing good judgment in their decision-making.

We highly recommend PNA Software for any graphic design or web design project you have in mind.

With warmest regards,

Irina Tolstousov
Head of Country brand promotion department
