- Material: TPE
- Be made of latex free material, safer and healthier
- Simple operation
- Effectively prevent cross infection and AIDS
- Good elasticity makes the patient feel more comfortable
- New button design can reduce the pain of the patient
- Color and size can be customized

GJ010-300 Disposable Tourniquet

- Material: TPE
- Be made of latex free material, safer and healthier
- Simple operation
- Effectively prevent cross infection and AIDS
- Good elasticity makes the patient feel more comfortable
- New button design can reduce the pain of the patient
- Color and size can be customized

GJ010-400 Disposable Tourniquet

- Material: TPE
- Be made of latex free material, safer and healthier
- Simple operation
- Effectively prevent cross infection and AIDS
- Good elasticity makes the patient feel more comfortable
- New button design can reduce the pain of the patient
- Color and size can be customized

GJ010-500 Disposable Tourniquet

- Material: TPE
- Be made of latex free material, safer and healthier
- Simple operation
- Effectively prevent cross infection and AIDS
- Good elasticity makes the patient feel more comfortable
- New button design can reduce the pain of the patient
- Color and size can be customized

GJ020-100

Disposable Tourniquet (small roll packing)

- Material: TPE
- Be made of latex free material, safer and healthier
- Simple operation
- Good elasticity makes the patient feel more comfortable
- Effectively prevent cross infection and AIDS
- Color and size can be customized

GJ020-200

Disposable Tourniquet (bow packing)

- Material: TPE
- Be made of latex free material, safer and healthier
- Simple operation
- Good elasticity makes the patient feel more comfortable
- Effectively prevent cross infection and AIDS

- Good elasticity makes the patient feel more comfortable
- Effectively improve the effect of hemostasis
- Heat transfer printing makes the belt smoother and the patient feels more comfortable
- Color and size can be customized

GJ031-200 Snap Tourniquet with Heat Transfer Printing

- Material: ABS (buckle)+ polyester fiber (belt)
- Reusable
- Simple operation, one hand release
- Good elasticity makes the patient feel more comfortable
- Effectively improve the effect of hemostasis
- Heat transfer printing makes the belt smoother and the patient feels more comfortable
- Color and size can be customized

GJ040-100

Medical Bite Block

- Material: PP
- Single used
- Be used to protect oral cavity and teeth during the process of gastroscopy operation
- Smooth surface makes the patient feel more comfortable
- Strap available to improve safety and convenience
- Be made of new high temperature resistant material, corrosion resistance, safer and healthier
- Color can be customized

GJ041-100

Medical Bite Block

- Material: PP
- Single used
- Be used to protect oral cavity and teeth during the process of gastroscopy operation
- Smooth surface makes the patient feel more comfortable
- Strap available to improve safety and convenience
- Be made of new high temperature resistant material, corrosion resistance, safer and healthier
- Color can be customized

GJ042-100

Medical Bite Block with Tongue

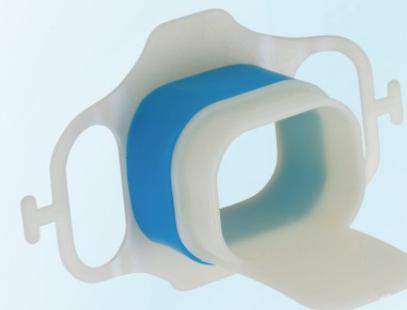

- Material: PP
- Single used
- Be used to protect oral cavity and teeth during the process of gastroscopy operation
- Smooth surface makes the patient feel more comfortable
- Strap available to improve safety and convenience
- Be made of new high temperature resistant material, corrosion resistance, safer and healthier
- Tongue depressor design allows the patient to keep the mouth open during endoscopy
- Color can be customized

GJ042-200

Medical Bite Block with Tongue

- Material: PP
- Single used
- Be used to protect oral cavity and teeth during the process of gastroscopy operation
- Smooth surface makes the patient feel more comfortable
- Strap available to improve safety and convenience
- Be made of new high temperature resistant material, corrosion resistance, safer and healthier
- Tongue depressor design allows the patient to keep the mouth open during endoscopy
- Color can be customized

GJ040-100A Bite Belt (Suitable for child)

- Material: TPE
- Be made of latex free material, safer and healthier
- Simple operation
- Good elasticity makes the patient feel more comfortable
- The length of belt can be adjusted freely by punching holes design
- Color can be customized

GJ040-100B Bite Belt (Suitable for adult)

- Material: TPE
- Be made of latex free material, safer and healthier
- Simple operation
- Good elasticity makes the patient feel more comfortable
- The length of belt can be adjusted freely by punching holes design
- Color can be customized

GJ050 Esmarch Bandage

- Material: TPE
- Widely used in first aid kits
- Be used to exercise limbs
- Safe and convenient, prevent bleeding
- Effectively prevent the proximal end of the heart from bleeding
- Simple operation
- Color and size can be customized

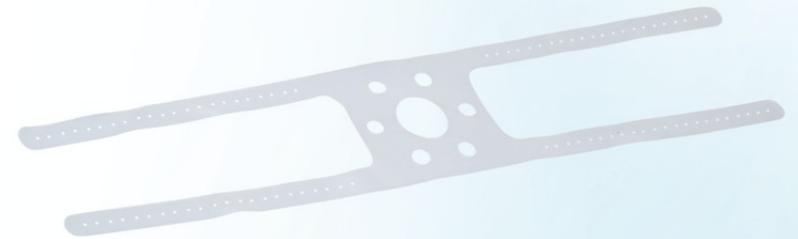

GJ050 Esmarch Bandage

- Material: TPE
- Widely used in first aid kits
- Be used to exercise limbs
- Safe and convenient, prevent bleeding
- Effectively prevent the proximal end of the heart from bleeding
- Simple operation
- Color and size can be customized

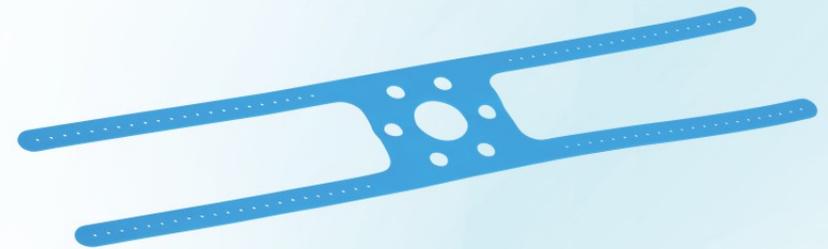

GJ060-100 Anaesthetic head Strap

- Material: Silica gel
- Widely used during the process of anaesthesia
- Be used to fix the anaesthetic face mask
- Novel and humanization design, convenient to use
- The strap can be adjusted freely according to the size of the head
- Color can be customized

GJ060-200 Anaesthetic head Strap

- Material: Silica gel
- Widely used during the process of anaesthesia
- Be used to fix the anaesthetic face mask
- Novel and humanization design, convenient to use
