

Gigaset S700H PRO

The all-rounder for daily use behind single- and multi cells-with a wide range of functions!

The new S700H PRO - developed to provide optimum support for everyday working life. The large 2.4" TFT display dominates the disinfectant-resistant surface of the handset and fits comfortably in the hand. The excellent battery life, with up to 320 hours standby, makes the S700H PRO the perfect companion for everyday work. The high-quality surface that makes the handset scratch- and disinfectant-resistant, protects the easy-to-read keypad. Business functions such as the hotel option, the separately programmable alarm-button, the IP40 protection class and the audio profiles that can be selected via a separate key make it easy to use in professional work environments. It can thus be individually adapted to the user's needs. The handset offers Bluetooth® 4.2 and an integrated 3.5mm jack connection to handle both cordless and corded headsets. The handset is optimised for use with all professional Gigaset DECT systems. In addition, the S700H PRO can be used with other CAT-iq & GAP compatible base stations in single and multi-cell environments.

Feature highlights

- Large illuminated 2.4" TFT colour display
- Intuitive user interface for easy operation
- Headset operation via Bluetooth® 4.2 or 3.5mm jack

- Charging:
 - Up to 12h talk time
 - Up to 300h standby time
 - Charging also via Micro-USB connection
 - Charging cradle included free of charge
- Full compatibility with the professional Gigaset DECT Single and multi-cell systems

Tangible evolution - outside and inside

The new Gigaset S700H PRO handset from the Gigaset Professional Series impresses with its large 2.4" TFT display and a host of business functions such as SUOTA, Bluetooth® 4.2, audio profiles and brilliant sound quality HDSP-ready™. With the audio profiles, you can adjust the volume to suit your needs at the touch of a button. The professional range of functions is rounded off by the vibration alarm, the Micro-USB interface and the excellent battery life.

Additional security with the hotel option and alarm button

This option deletes all call lists and other private data from the device at a pre-definable interval so that the next hotel- or room guest, cannot access them. This option makes it easier for the operator to meet the security requirements of the end users. Optimised for Gigaset single and multi cells and for use behind alarm systems³.

Resistant to disinfectants and scratches

The high quality surface includes the housing, keyboard and display. In addition, the surface of the handset is protected against scratches in everyday use by a harder surface coating. This also protects the handset against the effects of commercially available disinfectants. Especially suitable for cleaning against bacteria and virucides. You can find an overview of tested disinfectants on Gigaset Professional Wiki. The housing is also designed to keep metal dust outside the handset.

¹ Planned software update to CAT-iq 2.1

² Depending on base station and/or PBX, provider

³ Available at a later date

Gigaset S700H PRO

Order number: S30852-H2974-R102

Accessories

- Gigaset 360° Swivel Belt Clip
Order number: S30852-Z2974-R142

The robust Gigaset swivel belt clip made of high-quality plastic consists of two parts - the handset carrier and the belt clip. This allows S700H PRO to be attached to an ordinary belt. Due to the 360° rotation feature the handset is optimally fixed and still offers the desired freedom of movement. All connections on the device are still freely accessible.

³ In standard scope of delivery - colour changed for better display

⁴ Chargeable accessories - colour changed for better representation

It's your best choice.
