

TO WHOM IT MAY CONCERN

Lyon, June 4th 2021

In reference with Tender N° 21039705 / 17.05.2021

Sanofi Pasteur does acknowledge receipt of your request for a product offer following the publication and analysis of the tender documentation concerning the procurement of tetravalent influenza vaccine (the "Tender") by the Ministry of Health in Republic of Moldova.

Sanofi Pasteur would like to give certain clarifications regarding its supply capabilities for this Tender:

- Sanofi-Pasteur grants delivery of the vaccine with uninterrupted cold chain. The vaccines will be kept in the refrigerator (+2 to +8 degrees C) throughout the route from the manufacturer to the recipient, with monitoring by temperature recording devices. Each transport package will be equipped with a temperature monitoring device.
- Sanofi Pasteur will provide the following documents upon delivery, and for each batch:
 - batch release certificate issued by the national control authority of the country of origin
 - certificate of conformity issued by manufacturer and protocol of tests carried out.
- The vaccine provided by Sanofi-Pasteur will fulfill the following requirements:
 - Primary packaging: each vaccine pre-filled syringe will be packed in an individual pack containing the manufacturer's standard label, indicating:
 - product name
 - type and destination of the product (and other characteristics of the product)
 - batch number
 - date/month/year of production, and date/month/year of expiry
 - Secondary packaging: the vaccine pre-filled syringes will be packaged in cartons or plastic packages that will contain the instructions for use of the product in English and Spanish, and that will feature the following information on the packaging:
 - name and address of the manufacturer
 - product type and other features of the product
 - lot number
 - date/month/year of production, and date/month/year of expiry
 - number of units in the package
 - Information on storage conditions (temperature)
- Sanofi will deliver flu vaccines containing the strains recommended by WHO for the flu season 2021-2022, and the proposed shelf life will cover this period.
- Sanofi Pasteur would like to give certain clarifications regarding its supply capabilities for this Tender :
- 86 000 doses can be delivered by beginning of November 2021 & 43 000 ds by beginning of December 2021 with 9 months shelf life;

Yours respectfully,

Bruno RIGOLE
Business Operations Director, Eastern Europe
