

ISO 27001 certifications

GE Healthcare has certified critical parts of its Customer Remote Services to this Information Security Management Systems (ISMS) framework, the scope and applicability of these certifications will be continuously improved.

ISO/IEC 27001 is the best-known standard that helps organizations keep information assets secure. It is a systematic approach to managing sensitive company information so that it remains secure. It includes people, processes and IT systems by applying a risk management process.
