

# RACK CABINET PRODUCT COMPLIANCE DECLARATION

FINAL CUSTOMER COPY

CE Marking Applicability Statement - Passive Rack Cabinets and Enclosure Systems

## 1. Manufacturer / Responsible Company

<b>Company</b>	UPCOM Telekomünikasyon Bilişim Teknolojileri Sanayi ve Ticaret Limited Şirketi
<b>Address</b>	Küçüksu Mah. Rasathane Cad. No: 35R2 D:2, Üsküdar, İstanbul, Türkiye
<b>Website / Email</b>	www.upcom.com.tr   info@upcom.com.tr
<b>Product Group</b>	Rack Cabinets, Network Cabinets, Server Cabinets, Wall-Mount Cabinets, ODF Cabinets and Passive Enclosure Accessories
<b>Declaration Type</b>	Manufacturer self-declaration for passive rack cabinets and CE marking applicability scope

## 2. Products Covered by this Declaration

• FS-Line Network Cabinets	• FS-Line Server Cabinets
• BasicLine Network Cabinets	• OxoLine Network Cabinets
• SOHO Cabinets and W-Line Wall-Mount Cabinets	• Outdoor / IP-rated cabinet configurations, where supplied under UPCOM product scope
• ODF cabinets and passive cabinet accessories such as shelves, rails, cable managers, blank panels and mounting accessories	

## 3. Declaration Statement

UPCOM declares under its sole responsibility that the rack cabinets and passive enclosure systems identified in this declaration are passive mechanical enclosure products intended for housing network, telecom, IT and electrical equipment.

As standalone empty cabinets supplied without active electrical or electronic functions, these products are not CE-marked as independent electrical/electronic equipment or machinery products. This declaration confirms the product compliance and CE marking applicability scope of UPCOM rack cabinets based on their passive mechanical construction, intended use and supplied configuration.

Where electrical or electronic accessories such as PDU units, fan units, thermostats, lighting kits, cooling units or other powered components are supplied separately or together with the cabinet, the applicable CE/RoHS/LVD/EMC declarations for those accessories shall be provided separately or maintained in the technical file.

## 4. Authorised Signature

Place and date	İstanbul, Türkiye - 13 May 2026	Signature	Company stamp

## Annex A - Product Scope and Technical Notes

This annex forms part of document UPCOM-DOC-RC-COMP-2026-01 and defines the intended scope for customer issue and website publication.

Area	Declaration handling	Scope note
Passive cabinet body	Product compliance declaration	Mechanical enclosure, dimensional control, load-bearing structure, surface finish and declared product configuration.
Electrical accessories	Separate CE / RoHS declarations where applicable	PDU, fan unit, thermostat, lighting kit and cooling unit are handled under their own applicable declarations.
IP-rated cabinets	Evidence-backed declaration only when IP rating is claimed	Declared IP rating must match product datasheet, design and available technical evidence.
RoHS / REACH	Applicable material and component compliance statements	Restricted substance declarations may be issued separately for customer and tender requirements.

Product family	Examples / covered lines	Declaration handling
Network cabinets	FS-Line Network Cabinet, BasicLine Network Cabinet, OxoLine Network Cabinet	Passive cabinet body: product compliance and CE marking applicability declaration. Electrical accessories handled separately.
Server cabinets	FS-Line Server Cabinet and related floor-standing cabinet configurations	Mechanical/load/IP claims must match datasheet and available technical evidence.
Wall-mount / SOHO cabinets	SOHO cabinets, W-Line wall-mount cabinets and small enclosure configurations	Passive cabinet scope. Electrical kit CE declarations apply only when powered accessories are supplied.
Outdoor / IP-rated cabinets	Outdoor and IP55 enclosure configurations	IP claims must be evidence-backed and configuration-specific. Powered cooling or ventilation equipment requires separate accessory declaration.
Passive cabinet accessories	Shelves, rails, cable managers, blank panels, brush panels, mounting kits and similar passive parts	No standalone CE claim. Covered by product compliance and warranty documentation.
Electrical accessories	PDU, fan units, thermostat, lighting kit, cooling unit where supplied	CE/RoHS/LVD/EMC handled by the applicable component declarations and technical file evidence.

## Annex B - Technical File References

Reference area	Use in the technical file
Product datasheets and catalogue pages	Product identification, dimensions, load rating, IP rating where declared and intended use.
IEC 60297 series / EN 61587 series, where applicable	Rack/enclosure dimensional and structural reference for relevant cabinet configurations.
IEC 60529, where applicable	Ingress protection reference for outdoor/IP-rated cabinet configurations when an IP rating is declared.
Supplier declarations for powered accessories	Evidence file for PDU, fan unit, thermostat, lighting kit, cooling unit and other externally sourced electrical/electronic components.
REACH / RoHS declarations	Restricted substance compliance evidence for applicable material and electrical/electronic component scope.

## Annex C - Document Control

<b>Document number</b>	UPCOM-DOC-RC-COMP-2026-01
<b>Revision</b>	01
<b>Issue date</b>	13 May 2026
<b>Status</b>	Released
<b>Website file name</b>	upcom-rack-cabinet-product-compliance-ce-scope-declaration.pdf

End of document.
