

SCI® 5586

According to the Regulation No. 1907/2006/EC (REACH)
Annex II, as amended by Regulation No. 2020/878/EC

Date of revision: 2024-10-03 / EN
Date of previous revision: 2020-12-18 / EN

SECTION 1: Identification of the substance/mixture and of the company/undertaking**1.1. Product identifier**

Product name: SCI® 5586

Product description: Sodium hydroxide, tetrasodium EDTA and surfactant aqueous solution.

Product type: Liquid.

UFI: HCG1-00J9-F00R-QQME

1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: Alkaline concentrate cleaner for RO membranes.

Uses advised against:

Do not use for non-specified uses.

1.3. Details of the supplier of the safety data sheet

Company: JSC „Arionex LT“

Address: Ašigalio str. 6c, LT-49142, Kaunas, Lithuania

Telephone: +370 37 214669

E-mail: info@arionex.eu

1.4. Emergency telephone

Poisoning control and information bureau

Telephone number: 8 5 236 20 52

E-mail: info@tox.lt

Work time: All day (24 hours).

SECTION 2: Hazards Identification**2.1. Classification of the substance or mixture**

Product type: Mixture

According to Regulation (EC) No 1272/2008 [CLP]

Skin corrosion Category 1 H314 Causes severe skin burns and eye damage.

Eye damage Category 1 H318 Causes serious eye damage.

2.2. Label elements**According to Regulation (EC) No 1272/2008 [CLP].****Pictogram:**

GHS05

Signal Word: Dangerous.

Hazardous substances in the mixture:

Sodium hydroxide, Na₄ EDTA.

Hazard Statement:

H314 Causes severe skin burns and eye damage.

H318 Causes serious eye damage.

SCI® 5586

According to the Regulation No. 1907/2006/EC (REACH)
Annex II, as amended by Regulation No. 2020/878/EC

Date of revision: 2024-10-03 /EN
Date of previous revision: 2020-12-18 / EN

Precautionary Statements:**Prevention:**

P260 Do not breathe dust/fume/gas/mist/vapours/spray.

P264 Wash hands thoroughly after handling.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

Response:

P301+P330+P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting.

P303+P361+P353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing.
Rinse skin with water/shower.

P363 Wash contaminated clothing before reuse.

P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

P305+P351+P338 IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 Immediately call a POISON CENTER or doctor/physician.

Storage:

P405 Store locked up.

Disposal:

P501 Dispose of contents/container to accordance with local regulations.

2.3. Other hazards**Evaluation of PBT and vPvB results**

PBT: Not applicable.

vPvB: Not applicable.

No specific dangers known, if the regulations/notes for storage and handling are considered.

SECTION 3: Composition/Information on Ingredients**3.1. Substances**

Not applicable.

3.2. Mixtures

Chemical name: Sodium hydroxide, tetrasodium EDTA and surfactant aqueous solution.

Name	CAS No.	EINECS No.	Index No.	REACH Registration No.	Concentration range (%)	Classification according to Regulation (EC) No 1272/2008 [CLP]
Sodium hydroxide	1310-73-2	215-185-5	011-002-00-6	01-2119457892-27-0000	1-<5	Skin Corr. 1A H314
Tetrasodium EDTA	64-02-8	200-573-9	607-428-00-2	012119486762-27	1-<5	Acute Tox. 4 oral H302 Eye Dam. 1 H318
Surfactant	68515-73-1	500-220-1	-	01-2119488530-36	1-<5	Eye Dam. 1 H318

For the full text of the H-statements mentioned in the Section 16.

Additional information:

Specific concentration limits: Sodium hydroxide

Skin Corr. 1A; H314: $C \geq 5 \%$

Skin Corr. 1B; H314 $2 \% \leq C < 5 \%$

Skin Irrit. 2; H315: $0,5 \% \leq C < 2 \%$

Eye Irrit. 2; H319: $0,5 \% \leq C < 2 \%$

M-factor: None.

ATE (Acute toxicity estimates): Oral $ATE_{mix}=5000 \text{ mg/kg bw.}$

SCI® 5586

According to the Regulation No. 1907/2006/EC (REACH)
Annex II, as amended by Regulation No. 2020/878/EC

Date of revision: 2024-10-03 /EN
Date of previous revision: 2020-12-18 / EN

SECTION 4: First-Aid Measures**4.1. Description of first aid measures**

Remove contaminated clothing.

If inhaled:

The product is not volatile. If symptoms are felt, it is recommended to bring to fresh air to breathe.

On skin contact:

Remove contaminated clothing, footwear, watches, etc. And clean thoroughly before re-using them.
Wash immediately with plenty of water. Seek medical treatment in all cases of irritation.

On contact with eyes:

Rinse immediately with plenty of water for at least 10-15 minutes. Immediately obtain medical attention.

On ingestion:

Immediately rinse mouth and drink at least 0.5 liters of water, seek medical attention.

4.2. Most important symptoms and effects, both acute and delayed**Both acute symptoms:**

If inhaled:	No information available.
On skin contact:	May cause skin irritation or skin burns.
On contact with eyes:	May causes eye irritation and damage eyes.
On ingestion:	May cause burns of mouth, throat and stomach.

Delayed symptoms:

If inhaled:	No information available.
On skin contact:	Irritation, allergic reactions, skin burns.
On contact with eyes:	Tearing, redness, pain, eye damage.
On ingestion:	Stomach ache.

4.4. Indication of any immediate medical attention and special treatment needed

Treatment: No information available.

SECTION 5: Firefighting Measures**5.1. Extinguishing media****Suitable extinguishing media:**

All types of extinguishing media are suitable: water, dry powder, carbon dioxide, foam, sand and other.

Unsuitable extinguishing media:

None known.

5.2. Special hazards arising from the substance or mixture

Dangerous products of combustion of the mixture was not observed. Sulfur oxides may be formed.

5.3. Advice for firefighters

Wear protective working tools such boots, coveralls, gloves, eye and face protection.
EN 469 - Protective clothing for firemen.

SECTION 6: Accidental Release Measures**6.1. Personal precautions, protective equipment and emergency procedures****6.1.1. For non-emergency personnel**

Avoid contact with skin and eyes. Wear personal protective equipment as described under Heading 8.
ensure adequate ventilation in the workplace.

6.1.2. For emergency responders

Avoid contact with skin and eyes. Wear personal protective equipment as described under Heading 8.

6.2. Environmental precautions

Do not wash product down sewage and drainage systems or into bodies of water. If getting really happened, heavily diluted with water. The mixture don't pose a significant risk to health.

SCI® 5586

According to the Regulation No. 1907/2006/EC (REACH)
Annex II, as amended by Regulation No. 2020/878/EC

Date of revision: 2024-10-03 / EN
Date of previous revision: 2020-12-18 / EN

6.3. Methods and material for containment and cleaning up

Absorb the spillage into sand or other inert material, shovel into suitable containers. If containment is not possible and material enters the drain, dilute as much as possible with water.

6.4. Reference to other sections

Information regarding exposure controls/personal protection and disposal considerations can be found in section 8 and 13.

SECTION 7: Handling and Storage**7.1. Precautions for safe handling**

In the workplace should be equipped good ventilation. Do not eat, drink or smoke in the workplace. Avoid possible contact with skin, eyes or mouth. Wash hands after use. If work clothes or protective equipment become contaminated, remove them immediately. Follow good manufacturing practices. Avoid release to the environment. Keep away from water-reactive substances. Protection against fire and explosion: No special precautions necessary.

7.2. Conditions for safe storage, including any incompatibilities

The product should be stored in a cool, dry area in original manufacturer's packaging.

Storage stability:

Keep storage area should be dry, cool, 5 to 35 ° C and ventilated. Avoid freezing and high temperature change.

Unsuitable (incompatible) storage of chemicals: Strong inorganic acids

The mixture don't present a risk of ignition or explosion.

7.3. Specific end use(s)

Used as a alkaline concentrate for RO membranes.

Diluted by permeate product must be constantly and proportionally dosed at the inlet.

SECTION 8: Exposure Controls/Personal Protection**8.1. Control parameters**

Components with occupational exposure limits:

Name of chemical material		Exposure limits				
		long-term effects		short-term effects		DNEL
Sodium hydroxide	CAS No.	mg/m ³	ppm	mg/m ³	ppm	mg/m ³
	1310-73-2	-	-	-	-	2,0

DNEL values: EDTA*4Na (CAS no. 64-02-8)

DNEL for workers:

Long term effects - systemic and local effects, inhalation: 1.5 mg/m³

Short term effects - systemic and local effects, inhalation: 3 mg/m³

DNEL for users:

Long term effects - systemic and local effects, inhalation: 0.6 mg/m³

Short term effects - systemic and local effects, inhalation: 1.2 mg/m³

Long term effects - systemic and local effects, oral: 25 mg/m³

DNEL values: Surfactant: Alkyl Glucoside: (CAS no. 68515-73-1)

DNEL for workers:

Long term effects - systemic effects, dermal: 595000 mg/kg

long term effects - systemic effects, inhalation: 420 mg/m³

DNEL for users:

Long term effects - systemic effects, dermal: 357000 mg/kg

Short term effects - systemic effects, oral: 35,7 mg/kg

Long term effects - systemic effects, oral: 124 mg/m³

SCI® 5586

According to the Regulation No. 1907/2006/EC (REACH)
Annex II, as amended by Regulation No. 2020/878/EC

Date of revision: 2024-10-03 / EN
Date of previous revision: 2020-12-18 / EN

PNEC values:**Surfactant: Alkyl Glucoside: (CAS no. 68515-73-1)**

PNEC fresh water: 0.176 mg/l

PNEC sea water: 0.0176 mg/l

PNEC intermittent release: 0.27 mg/l

PNEC sewage treatment plants: 560 mg/l

PNEC Sediments (fresh water): 1.516 mg/kg

PNEC Sediments (marine water): 0.152 mg/kg

PNEC soil: 0.654 mg/kg

EDTA*4Na (CAS no. 64-02-8):

PNEC fresh water: 2.2 mg/l

PNEC sea water: 0.22 mg/l

PNEC intermittent release: 1.2 mg/l

PNEC soil: 0.72 mg/kg

PNEC STP: 43 mg/l

8.2. Exposure controls**8.2.1. Personal protective equipment**

General safety and hygiene measures: General indoor ventilation. Do not eat, drink or smoke when working with product to avoid contact with skin or mouth. Remove contaminated clothing, footwear, etc., and clean thoroughly before re-using them.

Respiratory protection. Not necessary.

Eye protection. Wear approved glasses or safety goggles (EN 166) to prevent contact with eyes.

Skin protection. Wear rubber gloves (EN 374), usual work clothes, rubber boots to prevent contact with skin.

8.2.2. Environmental exposure controls

Do not wash product down sewage and drainage systems or into bodies of water.

9. PHYSICAL AND CHEMICAL PROPERTIES**9.1. Information on basic physical and chemical properties**

Physical state:	Liquid;
Colour:	yellowish-brown;
Odour:	Weak smell product;
Odour threshold:	Not determined;
Melting/freezing point:	<-12°C;
Boiling point/range:	100 ÷ 130 °C;
Flammability (solid, gas):	Not applicable;
Upper/lower flammability:	Not determined;
Flash point:	Not determined;
Auto-ignition temperature:	Not determined;
Decomposition temperature:	Not determined;
pH (20 °C):	13,2;
Viscosity:	Not determined;
Solubility:	Soluble in water;
Partitioning coefficient n-octanol/water (log Kow):	Not applicable;
Vapour pressure:	Not determined;
Density (20 °C):	1,088 g/cm ³ ;
Relative vapor density:	Not determined;
Particle size:	Not applicable;

All the listed properties apply to the product (mixture).

SCI® 5586

According to the Regulation No. 1907/2006/EC (REACH)
Annex II, as amended by Regulation No. 2020/878/EC

Date of revision: 2024-10-03 / EN
Date of previous revision: 2020-12-18 / EN

9.2. Other Information

Explosive materials:	Not applicable.
Flammable gases:	Not applicable.
Aerosols:	Not applicable.
Oxidizing gases:	Not applicable.
Compressed gas:	Not applicable.
Flammable liquids:	Not applicable.
Flammable solids:	Not applicable.
Self-reactive substances:	Not applicable.
Pyrophoric liquids:	Not applicable.
Pyrophoric solids:	Not applicable;
Substances and mixtures which, in contact with water, emit flammable gases:	Not applicable.
Self-heating substances and mixtures:	Not applicable.
Oxidizing liquids:	Not applicable.
Oxidizing solids:	Not applicable.
Organic peroxides:	Not applicable.
Corrosive to metals:	Not applicable.
Desensitized explosives:	Not applicable.

SECTION 10: Stability and Reactivity**10.1. Reactivity**

No hazardous reactions if stored and handled as prescribed/indicated.

10.2. Chemical stability

The product is stable if stored and handled as prescribed/indicated (see Heading 7).

10.3. Possibility of hazardous reactions

The heat released by mixing with strong inorganic acids (exothermic reaction).

10.4. Conditions to avoid

Avoid freezing.

10.5. Incompatible materials

The heat released by mixing with strong inorganic acids (exothermic reaction).

10.6. Hazardous decomposition products

The product is stable, but heating may release hazardous decomposition products: CO, CO₂, PO_x, NO_x.

SECTION 11: Toxicological Information**11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008****Acute toxicity**

Skin contact. Direct contact with product may cause skin irritation/skin burns. Tests with rabbits: LD₅₀ 1350 mg/kg bw (Sodium hydroxide), LD₅₀ > 2 000 mg/kg bw (Surfactant: Alkyl Glucoside: (CAS no. 68515-73-1)). Based on available data, the classification are not met.

Ingestion. Tests with rats: LD₅₀: 500 mg/kg bw (Sodium hydroxide), LD₅₀> 5 000 mg/kg bw (Surfactant: Alkyl Glucoside: (CAS no. 68515-73-1)), LD₅₀: 1 000 – 2 000 mg/kg (BASF test, Na₄*EDTA). ATEmix=5000 mg/kg bw. Based on available data, the classification are not met.

Inhalation. Not volatile. Test with rats: LC₅₀: > 1 mg/l (Na₄*EDTA). Based on available data, the classification are not met.

Skin corrosion / irritation: Skin corrosion Category 1. Causes severe skin burns and eye damage.
Data on sodium hydroxide: Skin damage/irritation rabbit: Corrosive effect (OECD Guideline 404).

Eye damage / irritation: Eye damage Category 1. Causes serious eye damage.
Data on sodium hydroxide: Serious eye damage (irritation) rabbit: irreversible damage (OECD Guideline 405).

SCI® 5586

According to the Regulation No. 1907/2006/EC (REACH)
Annex II, as amended by Regulation No. 2020/878/EC

Date of revision: 2024-10-03 / EN
Date of previous revision: 2020-12-18 / EN

Sensitization: Skin: Based on available data, the classification are not met.
Respiratory: Based on available data, the classification are not met.

Mutagenicity: Based on available data, the classification are not met.

Carcinogenicity: Based on available data, the classification are not met.

Reproductive toxicity: Based on available data, the classification are not met.

Specific target organ toxicity (STOT SE) – single exposure: Based on available data, the classification are not met.

Specific target organ toxicity (STOT RE) – repeated exposure: Based on available data, the classification are not met.

Aspiration hazard: Based on available data, the classification are not met.

Information on likely routes of exposure

Skin contact: Direct contact with product may cause serious eye damage or irritation.

Eye contact: Mixture causes eye irritation and damage. Eye protection must be worn.

Inhalation: The mixture does not present a respiratory hazard. The mixture is not volatile.

Ingestion: The mixture does present a risk of ingestion.

Symptoms related to the physical, chemical and toxicological characteristics

Skin contact: Direct contact with product may cause serious eye damage or irritation.

Eye contact: Mixture causes eye irritation and damage. Eye protection must be worn.

Inhalation: The mixture does not present a respiratory hazard. The mixture is not volatile.

Ingestion: The mixture is not dangerous if swallowed.

Delayed and immediate effects as well as chronic effect from short and long-term exposureShort time exposure:

Potential immediate effect: Not available.

Potential delayed effect: Not available.

Long term exposure:

Potential immediate effect: Not available.

Potential delayed effect: Not available.

Potential chronic health effect:

Carcinogenicity: No known significant effect or critical hazards.

Mutagenicity: No known significant effect or critical hazards.

Reproductive toxicity: No known significant effect or critical hazards.

11.2. Information on other hazardsEndocrine disrupting properties:

Based on available data, the classification are not met.

Other information: None.

SECTION 12: Ecological Information**12.1. Toxicity**

The product does not have any known adverse effects on the aquatic organisms tested. The addition of large amounts of product to water may cause a rise in pH (alkalinity).

Information on sodium hydroxide CAS No. 1310-73-2

Acute toxicity for fish:

LC50 = 45,4 mg/l, *Oncorhynchus mykiss* 96 h.

LC50 = 160 mg/l, *Carassius auratus* (Goldfish) 96 h.

LC50 = 189 mg/l, *Leuciscus idus melanotus* (Golden orfe) 48 h.

LC50 = 125 mg/l, *Gambusia affinis* (Mosquitofish) 24, 48, 96 h.

SCI® 5586

According to the Regulation No. 1907/2006/EC (REACH)
Annex II, as amended by Regulation No. 2020/878/EC

Date of revision: 2024-10-03 / EN
Date of previous revision: 2020-12-18 / EN

Acute toxicity for invertebrates:

EB 40-240 mg/l, *Daphnia magna* (*Daphnia magna*)

LC50 = 40 mg/l, *Ophryotrocha diadema* (Marine polychaete) 48 h.

Acute toxicity for microorganisms:

EC50 = 22 mg/l, *Photobacterium phosphoreum* 15min.

Information on Tetrasodium EDTA CAS no. 64-02-8

Acute toxicity for fish:

LC50 > 100 mg/l, *Lepomis macrochirus* 96 h.

NOEC > 36,9 mg/l *Brachydanio rerio* 35 days

Acute toxicity for invertebrates:

EC50 > 100 mg/l, *Daphnia magna* (*Daphnia magna*), 48 h.

Acute toxicity for microorganisms:

EC50 > 100 mg/l, *Scenedesmus obliquus* 72 h.

EC20 (30 min) > 500 mg/l, activated sludge

Information on Alkyl Glucoside: (CAS no. 68515-73-1)

Acute toxicity for fish:

LC50 > 100 mg/l, *Brachydanio rerio*, 96 h

NOEC > 1 - 10 mg/l, *Brachydanio rerio*

Acute toxicity for invertebrates:

EC50 > 100 mg/l, *Daphnia magna* (*Daphnia magna*), 48 h.

NOEC > 1 - 10 mg/l, *Daphnia magna*

Acute toxicity for microorganisms:

EC50 > 10 - 100 mg/l, *Scenedesmus subspicatus*, 72 h.

EC0 > 100 mg/l, *Pseudomonas putida*

Conclusion: Based on available data, the classification are not met.

12.2. Persistence and degradability

Sodium hydroxide is completely soluble in water. The substance does not meet the criteria for biodegradation. In contact with water, it quickly splits into sodium and hydroxyl ions.

Information on Tetrasodium EDTA CAS no. 64-02-8

Assessment of biodegradation and elimination (H₂O):

It has been established that the substance is degradable by microorganisms.

Not easily decomposed by microorganisms (according to OECD criteria).

Information on Alkyl Glucoside: (CAS no. 68515-73-1)

Easily decomposed by microorganisms (according to OECD criteria).

12.3. Bioaccumulative potential**Information on Tetrasodium EDTA CAS no. 64-02-8**

Bioconcentration factor (BCF): about 1.8 (28 d), *Lepomis macrochirus*

It does not appreciably accumulate in organisms.

Information on Alkyl Glucoside: (CAS no. 68515-73-1)

The bioaccumulation potential is evaluated: Not likely to significantly accumulate in organisms.

12.4. Mobility in soil

Sodium hydroxide is highly mobile in soil and soluble in air. Easily converted to carbonate.

Information on Tetrasodium EDTA CAS no. 64-02-8

Volatility: The material will not evaporate from the water surface into the atmosphere.

Adsorption to soil: Absorption to solid soil phase is not likely.

Information on Alkyl Glucoside: (CAS no. 68515-73-1)

Volatility: The material will not evaporate from the water surface into the atmosphere.

Adsorption to soil: Absorption to solid soil phase is not likely. This product has not been fully tested.

Claims have been derived in parts based on products of similar structure or composition.

SCI® 5586

According to the Regulation No. 1907/2006/EC (REACH)
Annex II, as amended by Regulation No. 2020/878/EC

Date of revision: 2024-10-03 / EN
Date of previous revision: 2020-12-18 / EN

12.5. Results of PBT and vPvB assessment

The product does not fulfill the criteria for PBT (Persistent/bioaccumulative/toxic) and vPvB (very persistent/very bioaccumulative).

12.6. Endocrine disrupting properties

The substances in the mixture don't have endocrine disrupting properties.

12.7. Other adverse effects

None.

SECTION 13: Disposal Considerations**13.1. Waste treatment methods**

Not classified as harmful to aquatic organisms. Not classified as harmful to birds. Not allowed to dispose of empty containers or waste into the environment. Dispose of according to the local legislation. Empty containers should be returned to the supplier.

Waste code of packages:	15 01 02	plastic packaging
	15 01 10*	packaging containing residues of or contaminated by hazardous substances
Waste code of mixture:	06 02 04*	alkaline solutions GMTN waste - sodium hydroxide and potassium hydroxide.

SECTION 14: Transport Information**14.1. UN Number or ID number**

None.

14.2. UN Proper Shipping Name

None.

14.3. Transport hazard class(es)

None.

14.4. Packing Group

None.

14.5. Environmental hazards

None.

14.6. Special precautions for user

None.

14.7. Maritime transport in bulk according to IMO instruments

None.

The product is not covered by the international regulation on the transport of dangerous goods (IMDG/ IATA, ADR/RID) and therefore no classification is required. No special precautions are needed apart from those mentioned under Heading 8.

SECTION 15: Regulatory Information**15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture**

This safety datasheet complies with the requirements of Regulation (EC) No. 453/2010/EC, Regulation (EC) No 1272/2008 [CLP] and Regulation (EC) No. 2020/878.

15.2. Chemical Safety Assessment

Chemical Safety Assessment not required.

SCI® 5586

According to the Regulation No. 1907/2006/EC (REACH)
Annex II, as amended by Regulation No. 2020/878/EC

Date of revision: 2024-10-03 / EN
Date of previous revision: 2020-12-18 / EN

SECTION 16: Other Information

SCI® 5586 - For industrial use only.

SCI® 5586 safety data sheets and technical information developed by the manufacturer.
