Amplificator de curent cu handyscope	Model HS3-100 - Handyscope HS3-100	Olanda	TiePie Engeneering	Conform specificațiilor caietului de sarcini	<p><b>HS3-100 - Handyscope HS3-100</b> The Handyscope HS3 is a compact measuring Device. The Handyscope HS3 meets that requirement very well. Besides that, easy (dis) connecting of the device is important. This makes that the Handyscope HS3 can be used by several people. Because a measuring device most of the time is not used every day, and the device has many settings possibilities, the SET file is a grateful tool for fast and good performance of the measurement.</p> <p>The SET file contains all instrument settings, so there can not be made a setting error.</p> <p><b>100 MSa/s sampling, 2 MHz AWG, 128 kpts memory per channel, including:</b></p> <ul style="list-style-type: none"> <li>- 2 x HP-3250I x1 / x10 switchable oscilloscope probes 250 MHz</li> <li>- 1 x USB power cable</li> <li>- 1 x Instrument manual</li> <li>- 1 x Software manual</li> </ul>

					<p>The interesting point of the Handyscope HS3 is that once it is connected to a standard PC, there are offered a lot of measuring options which are normally only obtained by using several instruments; Besides the very good hardware qualities (100 MS/s sample speed, 0.2 up to 80 Volt input range, 8-16 bit resolution, 128 Kword memory per channel and fine trigger options), the Handyscope HS3 also has a powerful software pack.</p>  <p>The complete Handyscope HS3 gain and offset calibration is controlled by the software. The mechanical potentiometers are replaced by digital adjustable types. The gain and offset resolution can be adjusted better than 0.2% The Handyscope HS3 has a resolution range of 8 up to 16 bit.</p>
<b>TOTAL</b>					<b>2 bucăți</b>
<b>Garanție</b>	2 ani				
<b>Post garanție</b>	Există posibilitatea prelungii garanției sau încheierea unui contract de mentenanță a utilajului după expirarea termenului de garanție, în conformitate cu care schimbarea sau repararea bunului defectat va avea loc în decurs de 10-20 de zile.
