

PVC Manual Resuscitator

It is applicable to the occasions of cardiopulmonary resuscitation and respiratory first aid at work. It is especially suitable for asphyxia, dyspnea or the need to increase the oxygen supply. It is easy to use, less pain, less complications, easy to carry, and can be immediately ventilated with or without oxygen source.

Conventional configuration: PVC resuscitation bag, air bag, oxygen tube, PVC anesthesia mask, instructions manual.

Optional accessories: oropharyngeal airway (edge type and central type), opener, PEEP valve.

Packing method: PP box, paper box, PE bag.

1. The product uses medical grade PVC. It is non-toxic and non-irritating.
2. The mask is made of PVC material, The air cushion contour of the mask fits the human face shape and provides good sealing effect.
3. The product specification is complete and is disposable

Item No.	Patient Size
PMR-L	Adult
PMR-M	Pediatric
PMR-S	Infant
