 SC SAREROM SRL Campia Turzii, Romania	TECHNICAL SPECIFICATION– FINAL PRODUCT	ST-PF-01/16 -1
	SALT TABLETS	Ed. 1
		Rev. 2
		Pag. 1 / 2

- 1. Product name:** SALT TABLETS
- 2. Origin:** Romania/ Turda, county Cluj
- 3. Ingredients:** Sodium chloride
- 4. Method of obtaining salt tablets:** from untreated recrystallized salt
- 5. Sales unit:** bag 25kg,
This product complies with EN 973

6. Organoleptic characteristics

Characteristics	Admissibility conditions
Appearance	Tablets from untreated recrystallized salt
Foreign particles	Without
Colour	White

7. Physico – chemical characteristics

Characteristics	UM	Admissibility conditions
NaCl	%	Min 99,9 conf EN 973:2010, type A
Insoluble Matter in Water	%	Max 0,05 conf EN 973:2010, type A
Humidity	%	Max 0,05 conf EN 973:2010, type A
Nominal weight for one tablet	g	14±0,5g
Diameter for salt tablet	mm	25
Heigh for salt tablet	mm	15

Maximum limits of arsenic, heavy metals, according to SR EN 973: 2010, type A for maximum contamination levels salt

Characteristics	UM	Admissibility conditions
Arsenic	mg/kg	Max. 13
Cadmium	mg/kg	Max. 1,3
Lead	mg/kg	Max. 13
Nickel	mg/kg	Max. 13
Mercury	mg/kg	Max. 0,26

- 8. Intended use.** The product is used in the water softening process.
- 9. Storage** The product is kept in a dry place, away from light and excessive heat, in a clean space, with a maximum humidity of 75%. A space free of pests, without mold and without foreign smells.
- 10. Shelf life.** Unlimited, in compliance with storage condition
- 11. Labeling.** Each package must be identified, and the label must contain the following information: product name, supplier name, net weight, batch, production date, shelf life, storage conditions.
