## Cryogenic Storage Boxes

BOENMED manufactures CRYOGENIC STORAGE BOXES. The Cryogenic storage boxes made of high-quality polycarbonate plastic, used in ultralow freezer and liquid nitrogen storage vessels.

The cryogenic storage box is an excellent and long-lasting replacement for cardboard boxes. The cryogenic storage boxes are fully autoclavable and can withstand temperatures ranging from -196° to +121°C.

Clear lids and boldly numbered cells simplify sample viewing and identification.

Can be used in temperatures from -196°C to +121°C.

Drain holes and air vents minimize condensation
