

42250 SELÇUKLU/KONYA

TECHNICAL DESCRIPTION

Set with obstacles

Set with obstacles - the equipment will be intended for children from 3 years old. The construction will be made of 11 metal profiles, a connection bridge, a connection tube and a maze. All elements of the set will be connected by triangular platforms.

Connection tube - 1 unit - made of LLDPE with length size - 110 cm, diameter - 75 cm. They will be fixed to metal pillars with special clamping systems.

Connection bridge - 1 unit - the construction will consist of support pillars made of steel pipes, and two horizontal bars.
