

# Silicone Foley Catheter

## Features:

1. Made of 100% silicone
2. Better biocompatibility and less irritation
3. Color coding size identification and recognition
4. X-ray detective line integrated overall length and distal tip
5. Hard plastic valve only
6. Duration in human body max 28 days
7. Sterilized by Ethylene Oxide (EO Gas)

Endotracheal tube holder

Features:

1. Be suitable for all sizes of endotracheal tubes fixation
2. Bite block available to prevent patient biting and endotracheal tube kinking
3. Allow suction of oropharynx when endotracheal tube inserted

Item No./Cat. No.	Description
EC11080101	Endotracheal tube holder

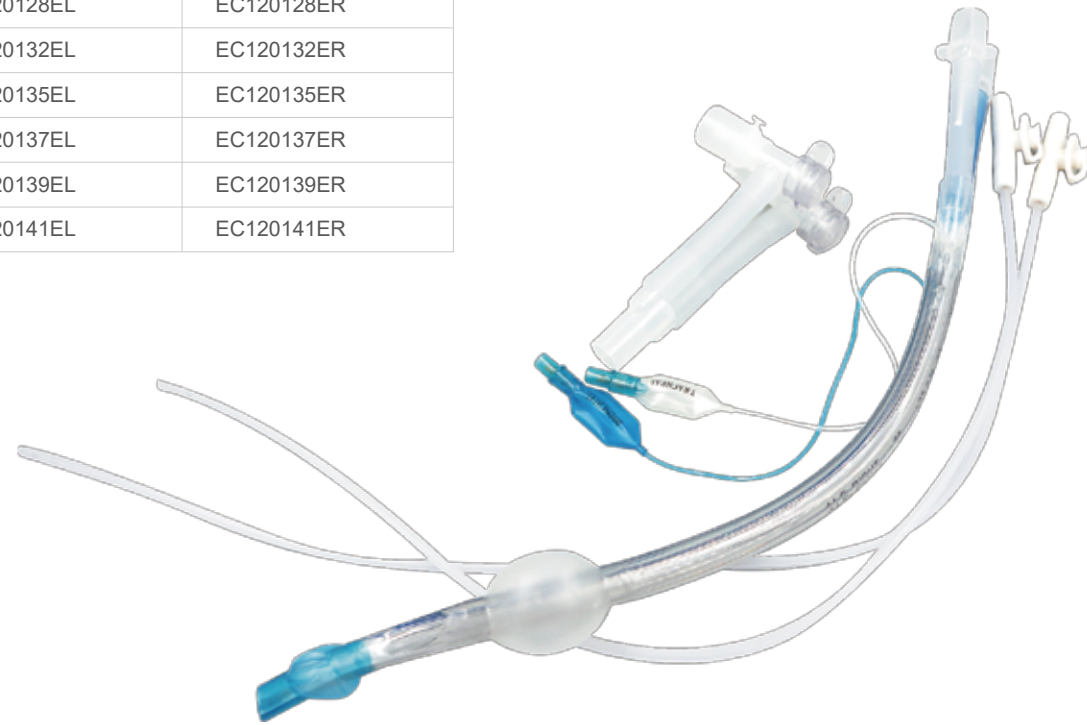

## Endobronchial tube

### Double lumen endobronchial tube

**Features:**

1. Made of medical grade PVC
2. Both left-sided and right-sided available for different surgery's option
3. Color coding for both cuffs and lumen and pilot balloon for tracheal (white) and bronchial (blue)
4. Switch connector and two low friction suction catheters packed inside

### Endobronchial blocker tube

**Features:**

1. It is invasive and short term use
2. Easy operation for insertion
3. Applicable for one-lung surgery and ventilation
4. Low pressure cuff bring less trauma

Item No./Cat. No.	Size (Fr/CH)
EC120201EB	5
EC120202EB	7

## Tracheostomy tube

### Tracheostomy tube

**Features:**

1. Made of medical grade PVC
2. Be detectable being with full length X radiopaque line
3. Universal connector for widely connection to ventilation equipment and device
4. Atraumatic smooth rounded tip of obturator with less trauma
5. Available with integrated suction lumen to decrease risk and rate ventilation-associated pneumonia (VAP)

## Nebulizer mask

### Features:

1. Made of medical grade PVC
2. Both transparent color and green color available
3. Both standard luer slip connector and luer lock connector available
4. Head strap can be with latex or latex free for different option
5. Medium oxygen concentration rate delivery to patients
6. DEHP free available
7. Star lumen tubing ensure oxygen delivery when tube kinked
8. Different nebulizer jars optional with volume 6ml and volume 8ml mainly

Item No./Cat. No.	Type	Size	Specification
EC22010101	Pediatric standard	S	With oxygen tubing
EC22010102	Pediatric elongated	M	With oxygen tubing

## Non-rebreathing mask (High Oxygen concentration Mask)

### Features:

1. Made of medical grade PVC
2. Both transparent color and green color available
3. Both standard luer slip connector and luer lock connector available
4. Head strap can be with latex or latex free for different option
5. High oxygen concentration rate delivery to patients
6. DEHP free available
7. Star lumen tubing ensure oxygen delivery when tube kinked
8. Different volume available for oxygen reservoir bag included

Item No./Cat. No.	Type	Size	Specification
EC23010101	Pediatric standard	S	With oxygen tubing
EC23010102	Pediatric elongated	M	With oxygen tubing
EC23010103	Adult standard	L	With oxygen tubing
EC23010104	Adult elongated	XL	With oxygen tubing

## Multi-vent mask

### Features:

- 1.Oxygen concentration rate adjustable to meet different patient's requirement
- 2.Locking ring secures flow setting
- 3.Both standard luer slip connector and luer lock connector available
- 4.Head strap can be with latex or latex free for different option
- 5.High oxygen concentration rate delivery to patients
- 6.DEHP free available
- 7.Star lumen tubing ensure oxygen delivery when tube kinked
