## PRODUCT DETAILS

**Operation pedals**

Operation pedals are accessible from both sides so the medical staff can operate the stretcher from either side

**Railing**

The unique railing is designed with special curved shape to minimize the width during transportation

**X-ray translucent platform**

Full length X-ray translucent platform is equipped so X-ray photography can be done on the stretcher without moving the patient

**Handle and IV pole**

Ergonomic handle located at the head end can let the staff to transport the stretcher in a wanted way, which can be also foldable when it is not in use. The IV pole is built in with the frame for hospital management.

**5th direction wheel**

Central brake system with 5th direction wheel provides the stretcher with ideal manipulation and stability

**Two column**

Two column structure with brand Acutant pump is durable for heavy operation and accessible for C-arm examination, the elegant base cover is practical for oxygen cylinder storage

**Railing lock**

The security lock with widened hook is resistant to pulling for safety protection.

**Castor**

Big caster with 200mm diameter is excellent for trafficability during transportation
