

CINCINNATI SUB-ZERO

# Normothermia System

## Gelli-Roll<sup>®</sup>

The revolutionary and simple-to-use Gelli-Roll<sup>®</sup> combines patient temperature management and comfort. The Gelli-Roll<sup>®</sup> is a reusable water blanket encapsulated in polymer. It may be used before, during, or after surgery to effectively keep your patient normothermic.

Many medical professionals are looking for ways to cut costs and eliminate environmental impact. In most cases, the Gelli-Roll<sup>®</sup> pays for itself in a matter of months.

- Easy to clean with disinfectants
- Reduces set-up and breakdown time
- Supports most patients, infant to adult
- Allows better access to the patient than blankets

*Cincinnati Sub-Zero has been managing your patient temperature needs for over 45 years.*
