DECLARATION OF CONFORMITY

Manufacturer's Name and Address: Ankara Seramik Porselen San. ve Tic. A. Ş.

Metal Factory: Ahi Evran OSB Mahallesi Babürşah
Cad. No:19 Sincan /ANKARA- TURKEY

We hereby certify that the transformer terminal connection components listed below are manufactured and inspected in accordance with the applicable international standards and engineering drawings.

Product Description

Copper terminal flag / connection clamp assemblies used for transformer and electrical equipment applications.

Product Identification

30-BRA-BPR-0000250-O53
30-BRA-BPR-0000400-O53
30-BRA-BPR-0000630-O53
30-BRA-BPR-0001000-O92
30-BRA-BPR-0001000-O93

Materials

The products are manufactured using the following materials:

- Main conductive parts: Electrolytic Copper CW004A (Cu-ETP)
- Locking mechanism components: Brass CuZn39Pb3
- Fasteners: Stainless steel bolts, nuts and washers in accordance with DIN 933, DIN 934 and DIN 127

Applied Standards

The manufacturing and dimensional tolerances comply with the following standards:

- **DIN 7168 / ISO 2768-m** – General machining tolerances
- **DIN 933** – Hexagon head bolts
- **DIN 934** – Hexagon nuts
- **DIN 127** – Spring washers
- **DIN 43675** – Special Flags

Quality Assurance

All products are manufactured in accordance with the approved technical drawings and internal quality control procedures. Each component is subjected to:

- Dimensional inspection
- Visual inspection
- Assembly verification

Declaration

We hereby declare that the above-mentioned products conform to the specified materials, manufacturing processes and applicable standards and are suitable for use in electrical transformer connection applications.

Quality Manager

Haluk ERDEMİR
