

Steel and Plastic Electrical Conduits

Galvanized Flexible Steel Conduits

Çelik Spiral Boru

Металрукав из оцинкованной стали

PVC Coated Flexible Steel Conduit

PVC Kaplı Çelik Spiral Boru

Металрукав в ПВХ оболочке

PVC Spiral Pipe Flame-retardant

PVC Spiral boru

Гофрированная труба из ПВХ

PE Spiral Pipe Halogen Free

PE Spiral boru

Гофрированная труба из полиэтилена

PA6 Polyamid Spiral Pipes

PA6 Spiral boru

Гофрированная труба из полиамида

PVC Rigid Pipes Flame-retardant Cold Bendable

PVC Düz boru

Жесткая гладкостенная труба из ПВХ

EMT Galvanised Steel Conduits

Galvaniz EMT boru

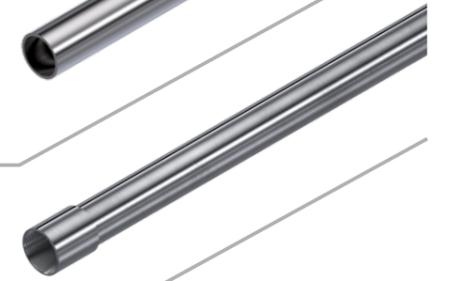

Оцинкованная стальная труба жесткая

RSC Galvanised Steel Conduits (threaded ends)

Galvaniz RSC boru, dişli

Оцинкованная стальная труба с наружной резьбой

Flexible Steel Conduits
Çelik Spiral Boru - Металлрук

Galvanized Flexible Steel Conduit

Çelik Spiral Boru - Металлорукав в герметичной

Dahili ortamlarda, mekanik koruma istenilen kablo tesisatlarında kullanılır.

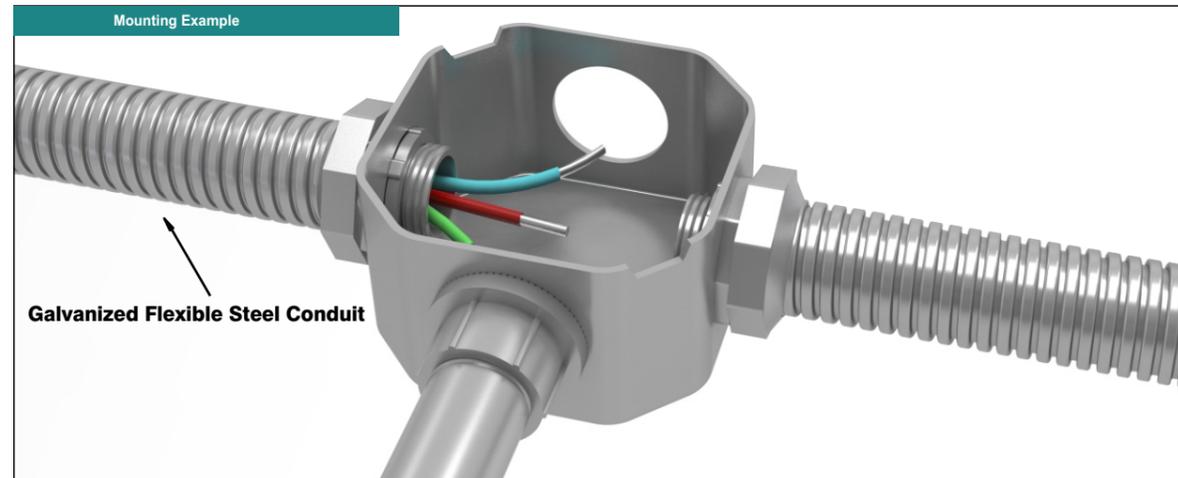

APPLICATION FIELDS

- *Machinery industry
- *Protecting cable under ground
- *Chemical industry
- *Protecting electrical installations

*Stainless steel option is available
*Paslanmaz olarak da üretilebilmektedir.

Fixed Internal Adaptor Male Thread

Sabit Diş Spiral Boru Rakoru - Муфта металлорукава-коробка с наружной резьбой

Material	Nickel Plated Brass Nikel Kaplı Pirinç
IP Rating Dayanım Derecelendirmesi	IP 44
IP Rating (If used with O-Ring) Dayanım Derecelendirmesi (O-Ring ile kullanıldığında)	IP 54
TYPE TİP	Fixed Body Sabit Diş
Temperature Resistance Sürekli Isıya Direnç	-40 C / +250 C

CONNECTION THREAD NORMS / BAĞLANTI DIŞI NORMATLARI

- Connection Thread "M" EN 60423
- Connection Thread "PG" DIN 40430
- Connection Thread "GAS" ISO 228

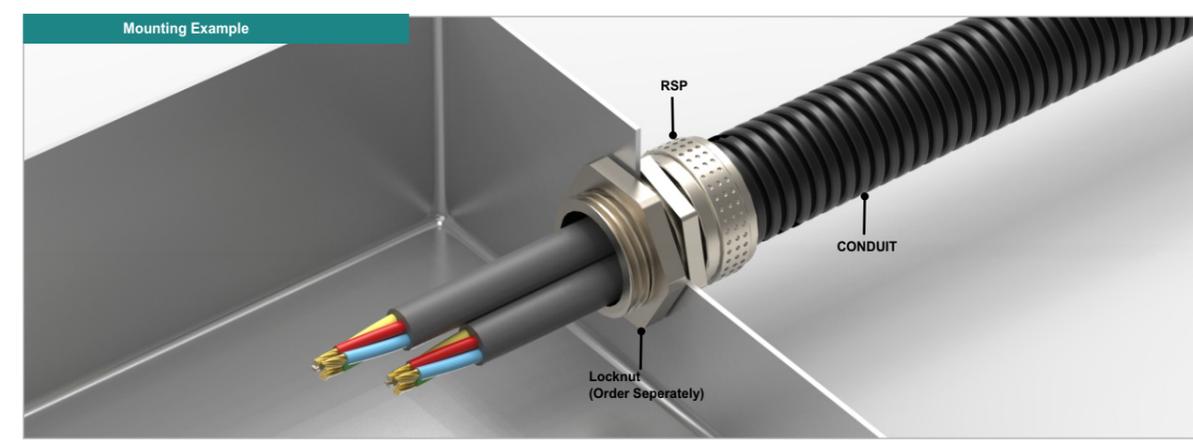

APPLICATION FIELDS

*For insertion into lockouts using a locknut order locknut separately

*Çelik spiral boruların ekipmanlara kilitleme somunu ile bağlantısında kullanılır (Kilitleme somunu ayrı sipariş verilir.)

*If requested NPT thread and desired thread length could be manufactured
*Electro-galvanized coating metal made of these connections are also available in production

EKF SZ 150	38	1 1/2"	50
EKF SZ 200	51	2"	40

Technical / General Features

Material: Die Cast Zinc
Zamak (Çinko Döküm)

CONNECTION THREAD NORM / BAĞLANTI DIŞI NORMU
"NPT"- ANSI B1.20.1.

APPLICATION FIELDS

*For terminate flexible steel conduit to a knockout in box or enclosure
*Çelik spiral boruların pano ve kutu bağlantısında kullanılır.

90° - Squeeze Type connector - Zinc

90° Bağlantı Rakoru - Sıkmalı Tip - Zamak - Муфта металлоруква-коробка поворот 90°

Order Code, Metric	Nominal Conduit Size		Minimum order Quantities, Pc

Material: Galvanised Steel
Galvaniz Çeliği

APPLICATION FIELDS

*Insert one bushing at each end of conduit to protect wire
*Çelik spiral boruların sonlandırılmasında kullanılır.

EMT Galvanised Steel Conduits

EMT Galvaniz Çelik Boru - EMT оцинкованная стальная труба

Material Hamme	Galvanized Steel Galvaniz Çelik
Standard	ANSI C80.3 - UL 797
Features Özellikler	Threadless, flexibility 10 FT - 3.05 meters in length Galvanised smooth inside body Provides electromagnetic protection Dişsiz, bükülebilir 10 Ft - 3,05 metre boyunda Yüksek kaliteli çelikten mamul Elektromaynetik koruma sağlar

Application Fields
Uygulama Alanları

For indoor use
shopping centers, residential constructions,
hospitals, protecting cables under ground,
protecting electrical installations

Yüksek katlı binalarda, fabrikalarda, AVM lerde,
tüm elektrik tesisat uygulamalarında kablo koruyucu
olarak kullanılır.
