WARNING

SERIOUS INJURY OR DEATH MAY RESULT FROM

(A) Tire failure due to under-inflation and/or overloading. Follow owner's manual or vehicle tire placard.
(B) Explosion of tire/rim assembly due to improper mounting. Only specially trained persons should mount tires.

TIRE MOUNTING SAFETY PRECAUTIONS

- (1) Follow RMA installation safety procedures for mounting and inflating tires.
- (2) Always match rim diameter and tire diameter
- (3) Never mount tire on a cracked, bent, rusted or otherwise damaged rim
- (4) Always lock the Tire/rim assembly on mounting machine or place in safety cage while installing
- (5) Never put a flammable substance into a tire/rim assembly
- (6) Always clean and lubricate rim and tire beads
- (7) Always use clip-on chuck and extension gauge on air hose when inflating and/or seating beads
- (8) Always stand clear and NEVER lean or reach over the tire/rim assembly when inflating
- (9) Never inflate over 40PSI (275 KPA) to seat beads
- (10) Always adjust tire pressure to vehicle manufacturer's recommendation after beads are fully seated
