LOGIQ™ P9

MAKE IT EASY. MAKE IT YOUR OWN.

YOU ASKED FOR SIMPLICITY.
We delivered.

The LOGIQ™ P9 ultrasound system is ideal for the clinical and workflow demands of general imaging. From triage to comprehensive exams, the budget-friendly LOGIQ P9 delivers consistent image quality, comprehensive application coverage, and ease of use that enable timely, confident decisions.

32%
Faster exam time[1]

44%
Keystroke reduction[1]

80%
Fewer hard keys[1]

PERSONALIZED
for customized workflow

Easy to learn and use, the LOGIQ P9 supports high efficiency for busy schedules.

Touch Control – Manipulate images on the touch panel with your fingertips, even when gloved. Zoom, magnify, freeze—all with a touch, similar to using a tablet or smartphone. Excellent cleanability as well.

My Page – Personalized digital user interface enables customization of workflow preferences and use case presets. Simply log in, select the appropriate exam type, and begin scanning.

Photo Assistant App – Integrates anatomical photos, taken from an Android™ device, into the ultrasound study to assist clinicians in confirming findings, documenting clinical symptoms, and reporting.

PATIENT-CENTRIC
for excellent care

The LOGIQ P9 supports your diagnostic confidence across a wide range of patient exams.

Excellent image quality with minimal tweaking required, and superb B-Mode spatial and contrast resolution.

Wide selection of high quality probes for excellent exam coverage including abdominal, cardiac, OB/GYN, musculoskeletal, vascular, small parts, pediatrics, urology and intra-operative procedures.
Advanced imaging and visualization tools, including:

- B-Flow™
- HD Color
- 3D/4D
- HD*live*™
- STIC/Omniview
- Strain and 2D Shear Wave Elastography

- Stress Echo
- TVI/TVD
- Cardiac Strain
- CEUS
- Enhanced B-Steer+
- Simultaneous display for urology

Easily share and archive images with Tricefy™ cloud-based storage, especially useful for OB imaging.

Liver Shear Wave Elastography, C1-5-RS

CEUS, C1-5-RS

Carotid Artery CF and PW, L4-12t-RS

Uterus B-Mode, IC9-RS

Cardiac Strain, 3Sc-RS

HD*live*, RAB2-6-RS

PRACTICAL for everyday and investment value

The LOGIQ P9 system easily adjusts to your working style, preferences and variable needs throughout your workday.

PRE-PROGRAMMED BUTTON PROBE

REMOTE CONTROL SCANNING

AUTOMATED EFFICIENCY

- Remote Control App enables operation from an Android™ device with the LOGIQ Apps
- Automated tools include Auto TGC, Auto IMT, AutoEF, Measure Assistant, Compare Assistant, and Scan Assistant
- Pre-programmed L4-12t-RS button probe functions without accessing the touch panel to help preserve the sterile field

DATA MANAGEMENT

- Easy data migration supported by DICOM®
- Volume Navigation Import to merge real-time ultrasound with CT and MR datasets

ADVANCED ERGONOMICS

+ External battery enables up to one hour of offline scanning

+ Large 21.5-inch monitor and accessible 10.4-inch touchscreen

+ Simple operating panel design with fewer physical keys[1]

+ Fully articulating arm[2], with up/down/swivel

+ Compact, lightweight design including wireless LAN and Power Assistant battery operation

+ Digital TGC and digital keyboard[3]

STRONG SECURITY AND SUPPORT

• SonoDefense built on the Windows® 10 IoT operating system provides multi-layer security to protect system integrity and patient data privacy
• My Trainer on-board training modules help accelerate operational confidence
• LOGIQ Club website offers educational resources to help optimize system utilization
• Purchasable service agreement options[2] including remote service capabilities

Now even more ADVANCED

Touch Control – Easily adjust imaging parameters on touch panel, even wearing gloves

Photo Assistant App – Combine anatomical photos and images in same report

HD Color – Sensitivity for visualizing small vessels and slow flow

2D Shear Wave Elastography – Quantitative estimate of tissue elasticity displayed in color-coded elastograms

Remote Control App – Operate the system from an Android phone or tablet

SonoDefense – Powerful data security features to help guard against costly breaches

Personalized
Customizable workflow features deliver high efficiency your way

Patient-centric
Quality images and advanced tools support diagnostic confidence across a wide range of patient exams

Practical
Advanced automation and ergonomics enable fast exams and reliable results

The LOGIQ P9 has been designed for compatibility with most commercially available ultrasound contrast agents. Availability of these agents is subject to government regulation and approval. Contrast imaging should be performed within the approved indications for use of the contrast agent used in the exam.

Imagination at work

1. Internal GE engineering study using standardized protocols for an abdominal exam compared with prior version GE LOGIQ P6 ultrasound system.
2. Availability varies; please contact your GE Healthcare Representative for more information.
3. Optional physical keyboard.
