Declaration of DICOM conformity for MediaRange optical storage CD-R and DVD-R media

MediaRange CD-R and DVD-R optical discs for digital recording and DICOM image archiving output are 100% DICOM compliant and work with any compatible DICOM modalities and PACS systems.

MediaRange optical media comply under ECMA 379 and 396 archival testing standards.

MediaRange CD-R and DVD-R media provide an optical disc solution for patient disc recording and printing and are manufactured in accordance with ISO 9001 and ISO 14001 standard operating procedures and to international optical discs manufacturing book specifications.

MediaRange optical CD-R and DVD-R media integrates with any compatible DICOM viewer that has optical disc drives for its data output.

MediaRange discs are DICOM compatible and can be used with automated production of patient discs for hospital use and image storage from a DICOM viewer.

In Addition, MediaRange DICOM compatible discs are available for use as an off-line back up to a network facility.
