Patrol RX is the new version of the iconic patrol flashlight, combining powerful illumination, a durable design, and advanced programming features. QUICK-SET™ Programming – an advanced programming system – allows the user to quickly and intuitively (with five clicks of a button) switch between three different lighting programs. The flashlight can be customized for various tasks, offering flexibility depending on the situation. A maximum light output of 2000 lumens and adjustable light intensity (ADS) enable effective operation in any condition. Patrol RX has a charging base that can be easily mounted on a wall or in vehicles, ensuring convenient charging during daily duty.
