#### După 4 ani de DCFTA, Uniunea Europeană este principalul partener comercial al Republicii Moldova

și cea mai importantă piață de desfacere pentru produsele moldovenești.

Schimburile comerciale între UE și Republica Moldova au atins, in 2017, 3.45 milliarde de euro, cu o pătrime mai mult față de momentul întrării în vigoare a Acordului de Liber Schimb (DCFTA). Totodată, DCFTA a împulsionat creșterea exporturilor spre UE cu 367 milioane de euro, adică cu 22%, în primii trei ani de implementare a DCFTA.

Ponderea UE în totalul exporturilor moldovenești a crescut de la 53.3%, în 2014, la 68.5% în prima jumătate a anului 2018. Astfel, 2 din 3 euro câstigați din export vin din Europa.

Datorită creșterii exporturilor, 15 000 de moldoveni si-au găsit un loc de muncă acasă.

### Au crescut cel mai mult exporturile de produse oleaginoase si cerealiere:

### DCFTA a adus beneficii importante economiei moldovenesti în ansamblu.

Creşterea exporturilor spre UE, estimată la 367 milioane de euro, a impulsionat creșterea Produsului intern brut cu 7%, creșterea investițiilor în capital fix cu 11% - circa 320 milioane EUR până în 2020 și creșterea veniturilor bugetare cu 5% sau circa 355 milioane euro până în 2020.

În 4 ani de DCFTA, importurile din UE în Republica Moldova au scăzut. Importurile de agroalimentare s-au diminuat cu 4%, iar importurile de industriale – cu 15%. Deficitul balantei comerciale s-a redus cu 45%.

#### DCFTA: oportunităti ce trebuie valorificate

Totodată, în perioada de referință, Republica Moldova a realizat doar parțial prevederile și cerințele pentru implementarea DCFTA. Realizarea deplină a acestor prevederi va permite companiilor moldovenești să livreze produse și servicii mai competitive pe piața europeană, iar cetățenilor din Republica Moldova - să se bucure de produse și servicii de calitate. Un exemplu în acest sens sunt produsele moldovenesti de origine animalieră.

## Out Of Home campaign

For the rural areas of Moldova the billboards are the secure and cost effective way to deliver the communication messages.

So, in the targeted regional towns/villages 14 local entrepreneurs have been chosen to be presented for a month at the OOH visuals to support the key message of the Project, to beat out the skepticism and to inspire others.

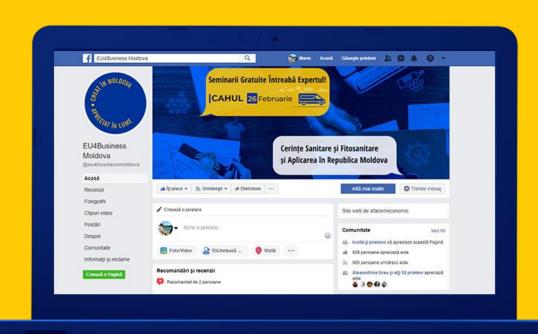

## Social Media accounts have been created on Facebook, Instagram, Youtube and Odnoklassniki

The on-line portal EU4BUSINESS has been updated using the brand new image and it is accumulating all the information related to DCFTA and useful links for the local businesses

Due to its inspiring messages, unique and dynamic design, multi-segments execution and cross-platforms nationwide media placement that campaign developed by PRIOR MEDIA had a huge success and became the well-known, recognizable sign of the successful implementation of the DCFTA in Republic of Moldova

## POSTERS DESIGN FOR NESCAFE 3 IN 1

#### CASE STUDY: NESCAFE GOLD

Banner design and printing for public transport stations

Taking into account the target audience of Nescafe GOLD, PRIORITY has developed a classic design that emphasizes the natural aroma of coffee, coffee beans and their grinding.

The pictures that attracted the eyes of the passers-by were carefully selected.

The address program for this brand has been selected leading by our target audience: near supermarkets, on streets with heavy pedestrian and car traffics.

#### **CASE STUDY: NESCAFE 3 IN 1**

#### Banner design and printing for public transport stations

PRIORITY created an unique design for Chisinau with a creative and interesting approach. It has been carefully thought out and designed taking into account the smallest details in order to attract the attention of consumers of our target audience. The address program for this brand was carefully selected near universities, colleges and universities.

The front of the station was transformed into a whiteboard, where all Nescafe 3 in 1 products were drawn manually. Also, to double the impact of the campaign on the citylights were placed the main characters from the TV commercials. Thus on the back side were developed some attractive designs that urged young people to take pictures and post them on social networks, where they could participate in a contest and had the opportunity to win gifts.
