## RECCOMENDATION LETTER

To whom it may concern,

I am writing this letter to recommend the partnership with Axint Management Group. During the period 2021-2023 the National Association of ICT Companies in Moldova has subcontracted Axint Management Group for several assignments, namely refurbishment of Tekwill Balti, Tekwill Comrat financed by USAID/Sweden and EU4Innovation Centre- INOTEK (phase one) financed by EU/Sweden. The works performed have met all expectations, have been performed following highest quality norms, and in a responsible and professional manner.

The selected provider has performed all works within project timeframe and has demonstrated flexibility when ATIC requested changes or adaptations to the project.

We would highly recommend Axint Management Group for any construction, refurbishment or other related works in the field.

Should you have any queries, do not hesitate to contact us.

**Ana Chirița,**  
**Strategic Projects Director**
