ABOUT US

Hengshui Deguang Medical Equipment Co., Ltd. is located in Binhu New Area, enjoying a superior geographical location and convenient transportation.

Through years of hard work and dedicated development, our factory now possesses the capability to professionally produce and research and develop various high, medium, and low-end rehabilitation and nursing beds, medical beds, elderly care products, disability assistance products, and some assistive devices. Our company boasts strong technical expertise, advanced equipment, and a complete product range. Our main medical products are rationally designed and aesthetically pleasing. They are sold to 20 provinces, municipalities, and autonomous regions across China, and exported overseas, receiving high praise from users and widespread acclaim from all sectors of society.
