

Spectrum Series

Electric Motorized Projection Screen

Product Description

Elite Screens **Spectrum Series** is a versatile electric motorized screen that fits perfectly in either residential or commercial wall/ceiling applications. Its MaxWhite® 2 1.1 gain projection material displays a bright picture regardless of viewing angle. The material is ISF Certified for accurate color reproduction, color contrast, and black-white dynamic range. Infrared & *Radio Frequency remote controls are included along with a wall box controller and 12-volt trigger capability. ***Included with RC1 Version only**

Product Design & Features

- Durable steel casing for wall or ceiling mount options
- ISF Certified material for accurate color reproduction
- Programmable vertical drop position for easy installation (**RC1 Version Only**)
- Plug & Play design with built-in low voltage control system, no hardwire installation required
