

freeflex+ Swabbable Luer Lock Port

- + Luer Lock-compatible injection port prevents needle stick injuries and minimizes risk of bag damage, leakages and contamination of patients or staff
- + Swabbable, reusable injection port ensures safe and convenient disinfection between multiple drug additions
- + Self-sealing septums in both ports help prevent leakages
- + Port accommodates a variety of male Luer Lock syringes

Easy Push & Turn Attachment

- + Only half a turn of a Luer Lock-equipped transfer adaptor or syringe is needed to reach the end position for a safe and tight connection with the bag
- + Minimal force is required to push through the self-sealing septum with a syringe or vial adaptor

Together, we are your ally for infusion delivery solutions.

- **IV Solutions**

A growing portfolio of IV solutions in free/flex bags.

- **Pumps**

A portfolio that performs everywhere, from acute care to home care.

- **Sets**

Accessories that support safety and efficiency in every application.

- **Software**
