Welcome to Our Product Catalog

LEEMOLAND TOY

Whether you're a toy wholesaler, hospital, sensory center, or a family with sensory needs, our product catalog is a great opportunity to gain a clear and comprehensive understanding of authentic sensory products. Our products undergo rigorous testing and have been validated by a wide range of customers worldwide.

About Us

Ningbo Leemoland International Trading Co., Ltd was founded in 2018.

We selected various educational toys for distributors worldwide, in line with our mission to combine education with entertainment. Through an accidental cooperation with a hospital, we started to enter the field of sensory toys. In cooperation with doctors and experts, we continue to develop more and more sensory products.

Through seven years of efforts and struggles in the market, we provide a variety of sensory toys, educational toys, STEAM toys, and school supplies to wholesalers, institutions, and schools around the world.

Our vision is to help kids maximize their brain development and emotional satisfaction through our products.

Capturing moments with warmth, companionship, and growth.

About Our Products

Wide Range of Products

At Leemoland Toy, we are committed to providing a high-quality and extensive range of sensory toys for hospitals, schools, shopping malls, training centers, and families. All our products are carefully selected to meet the diverse needs of doctors, teachers, trainers, and parents worldwide.

Wide Range of Uses

Our toys are not only great for children but also specifically designed to support those with Autism, ADHD, and various other learning challenges. Our company's mission is to deliver a wide variety of innovative toys and to create joyful, beautiful, and memorable experiences for everyone.

Designed to frame sense's best moments

Our products enhance experiential value through elements like color, material, and form, developing sensory functions across vision, hearing, touch, and smell.

Every product is designed to support each user's growth and to sense every precious moment.

We are constantly striving to discover newer, better, and more suitable products to enhance user experience. All our efforts revolve around our product philosophy: **'Play More, Sense More.'** Your recognition is the driving force behind our continuous progress.

Our Advantages

✓ Delivery Time Guarantee

Leemoland Toy has always been one of the fastest-delivery suppliers in the sensory toy field. Even for sensory room orders which with lots of items, we can still deliver quickly because we have been constantly optimizing our supply chain.

✓ Stunning Responsiveness

We always put customer needs first in our daily work, and the Leemoland Toy team is highly recognized by our customers and business partners.

✓ Flexible Price

Leemoland Toy has a strong supply chain and price advantage. In the field of sensory items, even if your purchase quantity is only 1 PCS, we can still customize it. And as the quantity increases, our price has an overwhelming advantage in this industry.

✓ New Trends

Leemoland Toy has been investigating the changes in the function and design of sensory toys for a long time and has been able to make timely adjustments.

✓ Take All The Worries Out

Leemoland Toy carefully customizes every order for each of our customers. Even if your order quantity is small, we will prepare a good alternative for you to boost your business.

✓ Unparalleled Professionalism

We have 7 years of experience in exporting educational toys and sensory toys. With continuous exploration and renewal, the depth and breadth of our product range is the best in the industry. We have become one of the few

Contents.

1 Sensory 7-44

Specially selected products that provide tactile, visual, or auditory stimulation to help individuals, especially children with sensory processing needs, explore their senses and promote relaxation or focus.

2 Sensory Room 45-80

Specially selected tool or equipment used in a sensory room to provide tactile, visual, auditory, or vestibular stimulation, aimed at promoting relaxation, focus, or sensory integration for individuals with sensory processing needs.

3 Motor Skill 81-110

Include fine motor skills and gross motor skills. Selected to enhance or assess voluntary movement abilities, which involve coordination between the nervous system and muscles.

4 Speech Therapy 111-116

Specially selected products focus on enhancing speech and language abilities, innovative tools that make therapy engaging through gamification.

PRODUCT — SENSORY TOY

Sensory toys start from multiple angles and dimensions, providing children with various forms of stimulation, including sight, hearing, smell, touch, joints, muscles, and vestibular senses, and effectively combine these stimuli with play.

The best sensory toys can improve children's concentration, movement coordination, and academic performance. Through the stimulation and training of sensory toys, children can grow up in play and grow up in happiness.

PRODUCT

SENSORY ROOM

Sensory room is a safe place for your senses. You can use it to calm down or feel happier. It helps you manage your emotions and concentrate more effectively. Many people use sensory rooms to feel safe and in control.

Sensory rooms offer a variety of sights, sounds, and textures to experience. You can change the lights or touch soft things. You can also listen to quiet sounds. These things help you relax or wake up, depending on what you need.

PRODUCT — MOTOR SKILL

Kids grow by moving and exploring their world. Motor skills help kids use their bodies to do things. There are two main types of motor skills.

Gross motor skills use big muscles for actions like running or jumping. Fine motor skills use small muscles in the hands and fingers. These help with tasks like picking up tiny things or buttoning a shirt.

PRODUCT

SPEECH THERAPY

Speech therapy helps people who have difficulties with speech, language, and communication. Improve the ability to speak and understand others. We may benefit from speech therapy if you struggle with pronouncing words, expressing your thoughts, or participating in conversations.

Speech-language pathologists use a variety of techniques in speech therapy to support your speech, language, and even swallowing skills. The primary goals of speech therapy are to enhance your confidence and facilitate easier communication.
