

Annex 1 to Certificate No. 43044/101/1/2015/CE

Devices: Dental materials

Types and Brand names:

- Light curing adhesive**
 - BONDING LC N
 - dline Light Curing Adhesive
 - OCTOBOND LC
- Chemical curing adhesive**
 - BONDING CC N
 - dline Chemical Curing Adhesive
- Temporary filling material**
 - LPRO N
 - dline Temporary Filling Material
- Root canal filling material**
 - BENDO
 - dline Root Canal Filling Material
- Resin modified zinc oxide-eugenol cement**
 - BZOE N
 - dline Resin Modified Zinc Oxide-Eugenol Cement
- Root canal preparation solution**
 - EDTA Solution
 - dline Root Canal Preparation Solution
 - EDTA
- Phosphoric acid etching gel and liquid**
 - AGEL N
 - dline Phosphoric Acid Etching Gel
 - dline Phosphoric Acid Etching Liquid
- Light curing nano hybrid composite**
 - LIGHT N
 - EXCITE LC N
 - dline Light Curing Nano Hybrid Composite
 - COTOLIGHT
- Light curing temporary filling material**
 - LPRO LC
 - dline Light Curing Temporary Filling Material
- Light curing compomer liner**
 - LINER
 - dline Light Curing Compomer Liner
- Chemical curing composite**
 - EXCITE CC N
 - dline Chemical Curing Composite
- Calcium hydroxide paste with iodoform**
 - CAL P/L
 - dline Calcium Hydroxide Paste With Iodoform
- Light curing pit and fissure sealant**
 - SEAL LC
 - dline Light Curing Pit And Fissure Sealant
- Light curing nano flowable composite**
 - FLOW N
 - dline Light Curing Nano Flowable Composite
 - COTOLIGHT Flow
