Seeing beyond

ZEISS SMARTDRAPE

Optimize clinical workflow
& work more time efficiently

1 Optimized Usability

Precise and secure positioning of the drape ring by increasing the magnetic holding force and redesign of the drape ring shape.

2 Expanded Simplicity

Simply activate AutoDrape® with the integrated RFID chip to automatically evacuate air from the sterile drape. Optimization of manoeuvrability and avoidance of foil tension by reducing straps.

3 Increasing Safety

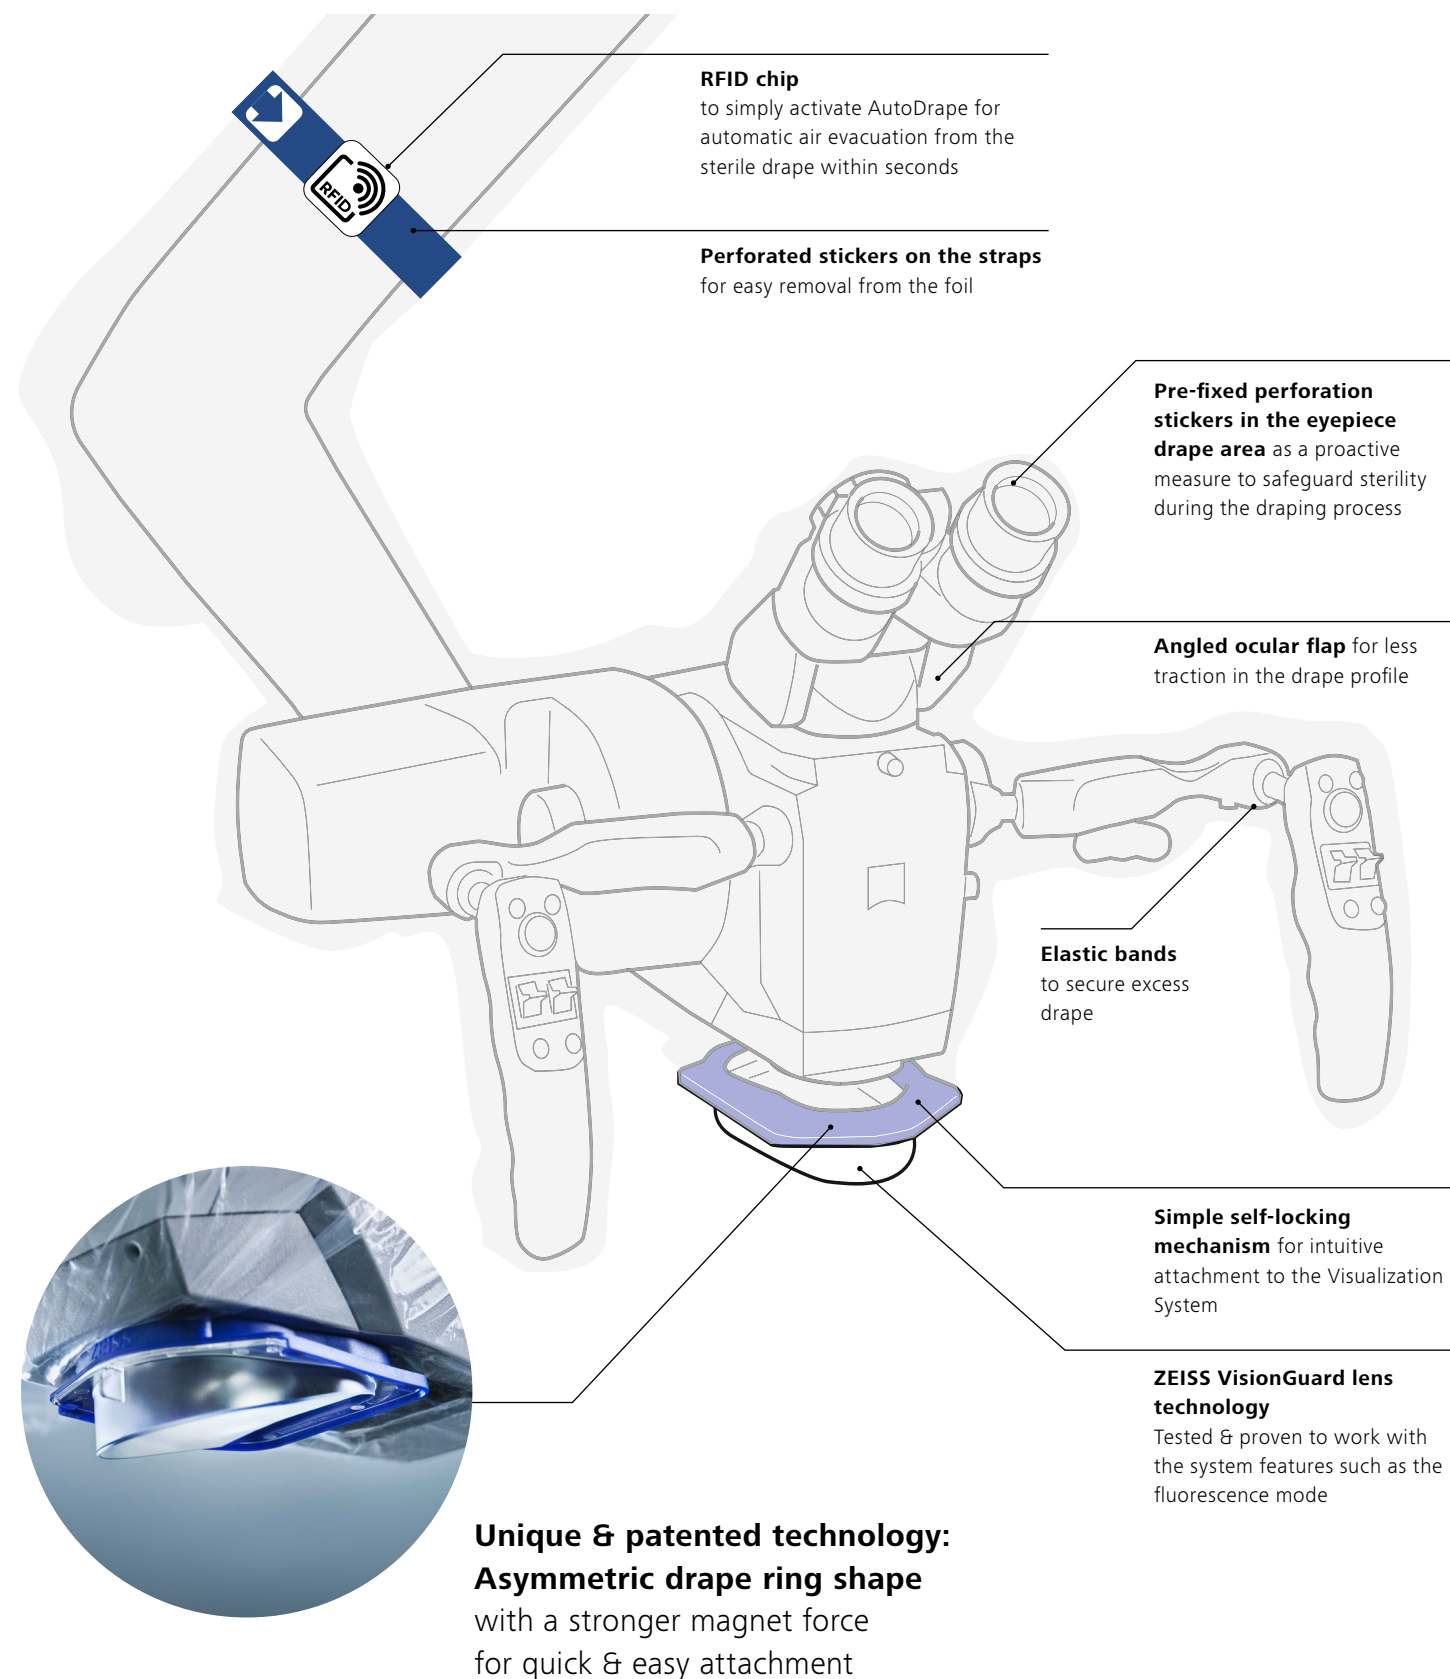

Eliminate guesswork and complexity with the innovative folding process, i.a. pre-attached oculars which remain inside of the drape during folding process.

4 Unlimited Vision

Benefit from a vivid view with the unique VisionGuard® lens technology from ZEISS. VisionGuard lens technology is tested and proven with key functionalities, such as the fluorescence mode.

ZEISS SMARTDRAPE

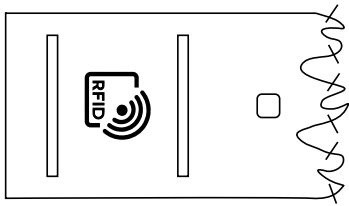

Combining simplicity and innovation, SMARTDRAPE from ZEISS has been developed and specifically adapted to integrate with the robotic functions of ZEISS Visualization Systems. It allows you and your team to enhance the efficiency of the draping process, and minimizes potential errors.

Technical Data

SMARTDRAPE from ZEISS

Technical Data	
Dimensions	132 × 340 cm
Weight	3.6 kg (1 pack)
Features	Asymmetric drape ring, 2 blue straps, 3 eye piece sections, RFID tag, 4 blue rubberbands sterile, single-use
Lens	ZEISS VisionGuard lens

Compatibility

The innovative ZEISS SMARTDRAPE fitting to the following devices:

ZEISS KINEVO® 900 S

ZEISS KINEVO® 900

ZEISS PENTERO® 800 S

ZEISS TIVATO® 700

CE 0297
SMARTDRAPE
