Backhoe Loaders 880

Features

Powerful Engine

Powering it with PERKINS 1104C-44T Tier II, PERKINS 1104D-44TA Tier III or PERKINS 854F-E34TA Tier IV turbo-charged diesel engine which offers world-class performance and complies with all relevant environmental regulations. Its low fuel consumption and maintenance costs make the 880 even more attractive.

Drive Train

Powershuttle gearbox with four forward and four reverse fully synchronized gears. Providing smooth shifting, hill climbing capability easy to operate. Electro-hydraulic selection of 2WD and 4WD can be done by a switch located on control panel.

Optimum Weight Distribution

The new generation Cukurova Backhoe Loaders are designed to have Optimum Weight Distribution giving safe, stable steering on the highway and provides a solid digging platform.

Improved Backhoe Performance

The standard 600 mm backhoe bucket coupled with the compact, powerful backhoe, means higher cycle and maximum output.

Single Cylinder Loader Design

Super bucket visibility over and around raked hood; Reduced maintenance (fewer links and pins); Increased bucket breakout as full cylinder diameter is used; Over designed pins beam structure.

CE marked - All safety measurements are taken through the Machinery Directives 2006/42/EC

Roomy ROPS/FOPS Cab

Specially designed ROPS/FOPS cab provides perfect operating comfort, excellent visibility with tinted safety glass.

A well designed dash within reach

Sitting in the driver's seat is a lot like sitting in a automobile. The tiltable front dash provides all switches and controls to be closer to the driver. There's no stretching, so there's less fatigue.

On right side dash, a large, easy-to-read, standard operator display features a maintenance indicator, hour meter, fuel level guage, engine oil temperature guage, engine rpm to name a few.

Steering Column

The steering column can be adjusted to an infinite amount of positions for maximum comfort, increased belly room and improved visibility of all indicators by simply pressing the quick-release foot pedal.

Dash Finishes

The dash comes nicely appointed in two finishes.

Easy Cab Entry

Sculpted, self-cleaning steps and a full-size grab bar provide an extra measure of safety getting in and out of the cab. Partial opening of cab doors

Serviceability

Three-pieces engine hood

Aerodynamic hood design provides operator to access all the necessary maintenance points easily and quickly thus spending less time and effort.
