

3D PEMF Therapy Machine

Lumina 3D-e Clinic - With Battery

Advantages and purpose of the PEMF machine

- Option to run two different programs simultaneously
- Time and intensity settings for each program
- Memory for programs + rename option: 200 positions
- Unique programs of the new 3D-e generation

• Lumina Clinic 3D-e Technical parameters

- Technology
- **3D-e patented Biomag® technology**
second generation of 3D pulsed magnetic therapy
- Programs
- **6 innovative 3D-e programs**
with therapeutic effect for a wide range of symptoms
- Display
- **Colour touch**
- Adjustable application time

- **5-90 minutes**
- Outputs
- **4 outputs**
completely independent channels for the latest Biomag® applicators
- Intensity
- **35 mT**
for each output
- Intensity setting
- **1-100%**
- Independent programmes
- Possibility to run up to 2 independent programs
- Renaming programmes
- **200 positions**
for renaming programs
- Frequency
- **1-81 Hz**
for low-frequency magnetic therapy applications
- Repetition of the programme
- **Yes**
auto-repeat can be started
- **Universal**
functional worldwide
- Operation on built-in battery
- **Yes**

3D PEMF therapy

A11P - PEMF Therapy Mat Applicator

Advantages and parameters of the mat applicator:

- Deep and surface applications on multiple parts of the body.
- The most demanded and most equipped Biomag mat applicator.
- Length 1 170 mm; width 420 mm; height 40 mm.
- Patented 3D technology.
- Possibility of joining into a closed shape or fixation.
- MIMI 3.0 mT.
- Connector 3 x JACK 3.5 mm.
- Weight: 2 kg.
