Cannula Fixation Dressing, transparent

Transparent, sterile fixation dressing for secure fixation of I.V. cannulas in veins. The absorbing pillows (2 x 2 cm) guarantee effective absorption along the cannula. The I.V. point of puncture is optimally protected against infections. A dressing pillow enclosed decreases pressure from the cannula. The plaster is airtight.

Width:	3 cm
Kind of adhesive:	Acrylate
Length:	4,5 cm
Material (adhesive structural):	Coated paper
Material (absorbent pad):	85% Viscose; 15% ESC (Ethylene-propylene) next to each other
Material (protective paper):	PU
Sterile:	Yes
Waterproof:	Yes
