## Reservoir bags - single-use

We offer a range of single-use reservoir bags that have excellent compliance characteristics for use in various clinical applications. Available in a range of sizes and bag neck fittings, they are totally latex-free.

The range also includes two bags with our 'Baggins the Bear' symbol for use with paediatric systems.

Please see our website for support material for paediatrics.

| Code    | Description  | Box Qty. |
|---------|--|----------|
| 2830000 | Reservoir bag, 3L with anti occlusion cage mount, 22F neck                               | 10       |
