## Yconnector-Twist

**DRY01B**

Twist Type Hemostasis Valve,  
Blue Torque, Guidewire Introducer

**DRY01**

### Features:

- The maximum passing inner diameter is  $2.9 \pm 0.1$ mm, which can meet the delivery of more instruments
- Pressure up to 300psi
- Introducer and Torque for 0.014"-0.021" guide wires

## Yconnector (short-Twist Y, FDA only)

### Features:

- Higher pressure, up to 500psi
- More options, Y-shaped, and T-shaped side branches, to meet different surgical needs
