

EC Design-Examination Certificate

Directive 93/42/EEC on Medical Devices, Annex II Section 4

No.**CE 538238**

Issued To:

**Merit Medical Systems, Inc.
1600 West Merit Parkway
South Jordan
Utah
84095
USA**

In respect of:

Angiographic and Guide Catheters

BSI has performed a design examination on the above devices in accordance with the Council Directive 93/42/EEC, Annex II Section 4. The design conforms to the requirements of this directive. For marketing of these products an additional Annex II excluding Section 4 certificate is required.

For and on behalf of BSI, a Notified Body for the above Directive (Notified Body Number 2797):

Gary E Slack, Senior Vice President Medical Devices

First Issued: **2008-10-03**Date: **2020-01-08**Expiry Date: **2023-10-02**

...making excellence a habit.™

Page 1 of 151

Validity of this certificate is conditional on the quality system being maintained to the requirements of the Directive as demonstrated through the required surveillance activities of the Notified Body.
This certificate was issued electronically and is bound by the conditions of the contract.

EC Design-Examination Certificate

Product: Angiographic Catheters

Intended purpose per IFU: Angiographic Catheters are designed to be used for delivering radiopaque media to selected sites in the vascular system in conjunction with routine diagnostic procedures. Angiographic Catheters with marker bands may also be used for anatomical measurements.

Classification: Class III

Product: Guiding Catheters

Intended purpose per IFU: Guiding Catheters are intended for use for intravascular introduction of interventional/diagnostic devices into coronary or peripheral vascular systems.

Classification: Class III
