

Ureter Access Sheath Standard

Made of Polyurethane
Tecoflex® USA
Dilator: PEBAX

Provides **ureteral dilation** and
a **continous working channel**
for the introduction of Endoscopes
and Instruments during ureteral
access procedures.

Art. No.	Sheath Inner Diameter Size (Fr/CH) = mm		Sheath Length
UAS 10-13	10	= 3.3	13
UAS 10-20	10	= 3.3	20
UAS 10-28	10	= 3.3	28
UAS 10-30	10	= 3.3	30
UAS 10-35	10	= 3.3	35
UAS 10-45	10	= 3.3	45
UAS 12-13	12	= 4	13
UAS 12-20	12	= 4	20
UAS 12-28	12	= 4	28
UAS 12-30	12	= 4	30
UAS 12-35	12	= 4	35
UAS 12-45	12	= 4	45
UAS 14-13	14	= 4.7	13
UAS 14-20	14	= 4.7	20
UAS 14-28	14	= 4.7	28
UAS 14-30	14	= 4.7	30
UAS 14-35	14	= 4.7	35
UAS 14-45	14	= 4.7	45

Class IIa device – for single use only

Ureter Access Sheath Braided

Made of Polyurethane (braided)
Tecoflex® USA
Dilator: PEBAX
Silver part: Stainless steel, braided tube

Provides **ureteral dilation** and
a **continous working channel**
for the introduction of Endoscopes
and Instruments during ureteral
access procedures.

Art. No.	Sheath Inner Diameter Size (Fr/CH) = mm		Sheath Length
UAS-B 10-13	10	= 3.3	13
