An intelligent young man looking for a new life experience and willing to develop existing personal skills, obtained through life experience.

I am a responsible person who enjoys working and communicating with other people. I am enthusiastic, friendly, reliable, self-driven, hardworking, articulate, scrupulous with a pragmatic mind and not afraid of new challenges.

Areas of knowledge

- C#
- .NET Framework
- SQL server

- HTML/CSS//jQuery/Bootstrap
- JavaScript
- Web API (REST)
- MVC .NET development
- Entity Framework

I have got good skills in communicating complex ideas, also excellent knowledge of customer service principles and practices.

I feel that I can be efficient in my work using my skills and improving them by learning something new.

I have been working in teams, so through my experience I understand how important is team-work.
