Garantie 24 luni</p> <p>3.Roto VR Chair <u>HEADTRACKER:</u> The Headtracker mounts to any part of the HMD, however we recommend it sits flat on the very top of your head (if possible). The battery life in the</p>	
--	--	--	--	--	--

					<p>Headtracker is around 8-10 hours and can be charged with a micro USB-B cable</p> <p><u>ROTO SEAT:</u> The seat is made of PU leather with internal foam for comfort. Inside the armrests are slots in which the side tables can be inserted (designed as joysticks support but useful for other things such as stowing motion controllers). The armrests also have a recess location to stow the Headtracker and emergency button (optional). The seat headrest is removable to enable better tracking between headsets and any room sensors.</p> <p><u>RUMBLE:</u> The rumble is triggered using low frequency audio coming out from the software Developers can also dynamically control the rumble using our Software Development Kit (SDK). The seat itself has been designed internally to maximise the feeling impact of the vibrators, for example using materials that provide resonance effects</p> <p><u>Control Box</u> The Roto VR chair Control Box is the central hub where devices can be connected. The Control Box is located on the underside of the seat and supports:</p>
