

## Easy and Safe Application with Nutricomp® 500 ml

For individual patient need without additional preparation

# New bottle design

For easy, safe and convenient enteral tube feeding

## Enteral Nutrition

A new container type has been added to our Nutricomp® tube feed diets family. The clinically proven Nutricomp® tube feeds are now available in a 500 ml HDPE bottle. B. Braun offers a full range of nutritionally complete tube feed diets, which vary in their nutritional composition and thus can be tailored to the individual needs of patients.

## YOUR BENEFITS

- Ergonomic shape with an integrated hanger
- Durable and leakproof bottle design
- Compatible with both pump application system (e. g. Enteroport® plus) and gravity application system
- Transparent metric scale eases monitoring of formula delivery
- Same color code pattern as for Nutricomp® monobags

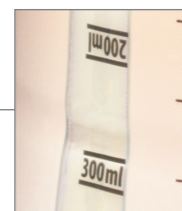

### SAFE CONNECTION

- Secure connection to B. Braun administration sets
- Easily connectable with Universal Adapter and ENPlus spike
- Designed for both gravity application and pump application

### SAME COLOR CODING

- Same color code pattern as we use for Nutricomp® monobags
- Fast identification of formula and handling

### METRIC SCALE

- Sleeve with transparent measure scale to visually check the formula
- Easy monitoring of correct nutrition delivery in both upright and reversed position

### EASY TO USE

- Ergonomic shape for better grip and handling
- Lightweight design
- Integrated hanger for convenient attachment on pole

### DURABLE DESIGN

- Robust design
- Unbreakable
- Leakproof

# Enteral Nutrition with Nutricomp®
