## TECHNICAL DATASHEET

### PRODUCT DESCRIPTION

|                               |                     |
|-------------------------------|---------------------|
| ITEM DESCRIPTION              | DISPOSABLE UNDERPAD |
| SIZE (CM)                     | 60x60               |
| ITEM CODE                     | 800.001C-1.02       |
| PRODUCT GRAMMAGE              | 26 gr               |
| EAN-13 CODE                   | 8681672319359       |
| ABSORPTION CAPACITY (ML)*     | 511                 |
| PE COLOUR                     | WHITE               |
| ABSORBENT CORE DIMENSION (CM) | 50*50 CM            |

### PACKAGING

|              |     |
|--------------|-----|
| UNITS / BAG  | 30  |
| BAG / BALE   | 6   |
| UNITS / BALE | 180 |

### LOGISTICS DATA

|                        |                                                            |
|------------------------|------------------------------------------------------------|
| BALE DIMENSIONS (MM)   | 280x380x470                                                |
| BALE WEIGHT (KG)       | 5                                                          |
| PALLET                 | 36                                                         |
| PALLET HEIGHT (M)      | 2,35                                                       |
| PALLET DIMENSIONS (CM) | 80x120                                                     |
| COMPRESSING            | YES                                                        |
| PRODUCTION SITE        | <a href="http://www.medcare.com.tr">www.medcare.com.tr</a> |

### COMPOSITION

|                      |                                                                                                      |
|----------------------|------------------------------------------------------------------------------------------------------|
| INNER LAYER / TURKEY | Extra soft breathable and skin-friendly web:<br>100 % Non-woven hydrophilic polypropylene spunbonded |
| CORE / ORIGIN USA    | Quick diffusion of liquids in the core centre:<br>- Fluff (Paper pulp - cellulose fibres)            |
| OUTER LAYER / TURKEY | Single coloured waterproof backsheet:<br>% 100 polyethylene                                          |

### SPECIFICATIONS

|      |                                                               |
|------|---------------------------------------------------------------|
| CORE | Made of long cellulose fibers<br>for a better fluid retention |
|------|---------------------------------------------------------------|
