

Color Screen

Real-time and clearer display of various values and appointment timing function.

Work Zone

Work zone, made of 304 stainless steel. is surrounded by negative pressure.

Foot Switch

Adjust front window height by foot during experiment, to avoid airflow turbulence caused by arm

Remote Control

All functions can be realized with it, making the operation much easier and more convenient.

Front Window

Motorized, Two-layer laminated toughened glass >6mm, Anti UV.

Footmaster Caster

Universal caster with brake and leveling feet.

Cabinet Support Block Easy to lift, prevent hand pressing

Iron hook support rod for panel support

UV Lamp

Emission of 253.7 nanometers for most efficient decontamination.

ADVANTAGE

- 1. Color key display: large screen, more clear and dynamic display of various values of the safety cabinet, and has the function of appoint
- 2. Automatically adjust the wind speed.
- 3. With power-off memory function, the state before power-off will be restored after power-on, and there will be visual prompts and alarms.
- 4. The integrated design of the operation area makes it easy to disassemble and clean.
- 5. The cabinet is separated from the base. The height of the adjustable base can be customized.
- 6. Interlocking function: UV lamp and front window; UV lamp and fan, lamp; fan and front window.
- 7. It has the function of appointment timing, which can automatically set the time of starting and shutting down the safety cabinet and the running time of ultraviolet lamps, fans and sockets.
- 8. The front window closes the double trigger signal, so that the sterilization and disinfection function of the ultraviolet lamp is normally
- 9. The negative pressure air duct is equipped with a foreign matter filtering structure to prevent foreign matter such as paper scraps from entering the fan system and affecting the normal operation of the product.
- 10. The front window glass has a one-key lift function
- 11. The cabinet is designed with a 10° inclination angle, which is in line with ergonomic principles, with a larger viewing angle, convenient operation and more humanization.
- 12. The one-piece hand rest has a large flat surface, which has a larger contact area with the arm and is more comfortable.

TECHNICAL PARAMETERS

Model		BSC-1100 II B2-X	BSC-1300 II B2-X	BSC-1500 II B2-X	BSC-1800 II B2-X
External Size (W*D*H)	1100*775*2250mm	1300*775*2250mm	1500*775*2250mm	1800*775*2280mm
Internal Size (V	W*D*H)	940*600*660mm	1150*600*660mm	1350*600*660mm	1625*600*660mm
Tested Openin	ng	Safety height 200mm (8")			
Max Opening		480mm			
Inflow Velocity		0.53±0.025m/s			
Downflow Velo	ocity	0.33±0.025m/s			
ULPA Filter		Two, 99.9995% efficiency at0.12µm, filter life indicator			
Front Window		Motorized. Two-layer laminated toughened glass≥6mm. Anti UV			
Noise		≤65 dB			
UV Lamp		30W*1	30W*1	40W*1	40W*1
		UV timer, UV life indicator, emission of 253.7 nanometers for most efficient decontamination			
LED Lamp		12W*2	14W*2	16W*2	16W*2
Illumination		≥1000Lux			
Consumption	WW	1300W	1300W	1300W	1300W
Waterproof So	cket	Two, total load of two sockets: 500W
