It Specialist

ICPS "Energoproject"

08/2002 - 01/2004 Chisinau, Moldova

SUMMARY

Hi, my name is Viorel Iordachita. I'm a passionate software developer with over 20 years of experience, specializing in back-end development using Java, Spring, RESTful APIs, and PostgreSQL. I've had the opportunity to lead teams and develop complex Fintech and CRM/ERP applications as the founder of JCode Solutions, where I built scalable solutions from the ground up. My background spans diverse industries, including Fintech, banking, and small business solutions, and I'm particularly proud of my work leading the development of workflow management systems and ETL applications. I'm a team player with a bias for action, and I'm always looking for new challenges where I can contribute my expertise in building efficient and reliable software solutions.

SKILLS

Backend development

Java, Spring, RESTful APIs, PostgreSQL, ETL

SOFT SKILLS ~ Team Player, Bias for action
