

Armada 35 and 35 LL

PTA Catheter

Armada. The profile you need
with the push you want.

Lengths up to
250 mm

- Profile
- Push
- Quick deflation

Endovascular
Commitment

Abbott
A Promise for Life

This is Armada 35

Introducing Armada 35, the latest innovation from the Armada Family of PTA catheters. Engineered to treat the broadest range of lesions, with unmatched* crossing profiles and push transmission.

Armada 35 RANGE

Customized engineering for multiple applications.

Long Lengths up to 250 mm

Enhanced pushability even with long lengths.

Frequently Used Sizes with High RBPs

Power when you need it.

Large Diameters up to 14 mm

6F sheath compatibility to 12 mm diameter. Fast deflation maintained through 14 mm.

Armada 35 RANGE

Customized engineering for multiple applications.

Low profile tip
Laser formed to enter and cross challenging lesions

Responsive force transmission
Reinforced inner catheter designed for excellent pushability

Low profile rewrap
Unique balloon folding geometry minimizes profile while allowing smooth rewrap

CrossFlex² Technology
Multi-layer engineering enables increased wall strength and RBPs with low crossing profiles***

Rapid deflation
Size specific contrast lumen designed for optimal flow dynamics

* Based on balloon crossing profile measurements and pushability performance bench tests among competitors (Powerflex P3, Opta Pro, Ultra-thin Diamond, Ultra-thin SDS, Admiral Xtreme, Dorado, Rival, EverCross, Mustang)
** PowerFlex Pro (6x220x135) is the closest available size.
*** Compared to FoxCross

Armada
Always a Step Ahead.
