

Adult Diapers

incoped[®]

WETNESS INDICATOR

The yellow indicators on Incoped Patient Diapers showing how wet the diapers are without taking them off, turn to blue when wetness is detected.

RAPID ABSORBENT - DISPERSING GREEN LAYER

Thanks to the green layer special to Incoped, wetness is rapidly absorbed, dispersed into the diapers and blocked. As the result of this, the patient's skin is kept continuously dry.

ADJUSTABLE VELCRO WAIST BANDS

The re-sealable bands help the diapers to fit on the patient perfectly.

PROTECTIVE LARGE BARRIER

Large surface preventing leakage enables clothes not to get wet.

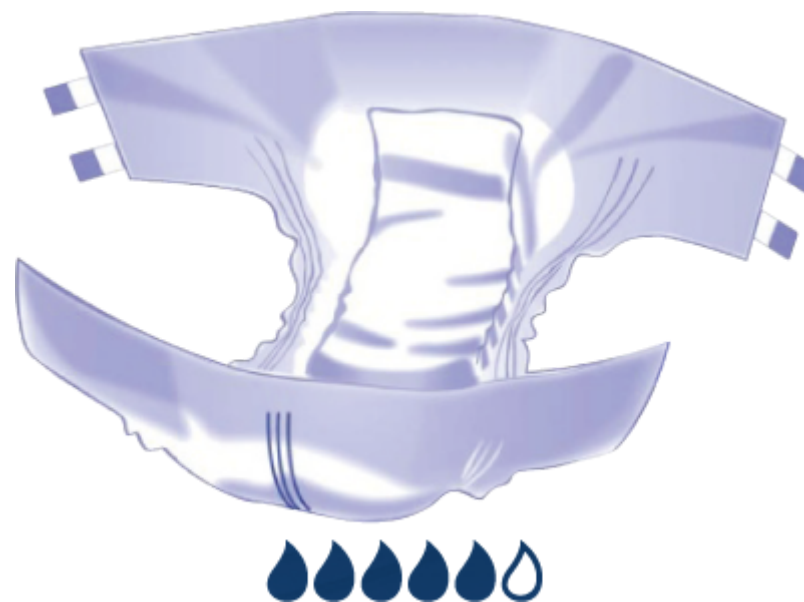

DOUBLE LAYER CELLULOSE WITH REINFORCED ABSORBENCY

INCOPED

		Package/Pieces		Box/Package
Economic Package	Medium	10	Pieces	6 Package
	Large	8	Pieces	6 Package
