Your Future, Printed

Mobile MT800
## printer for A4 paper

Print whenever and wherever you want

Mobile printer for A4 paper . Batter life . High resolution ratio . RFID identification system . Multiple communication interfaces

Small and light, A4 printing easy to cope with the fast pace of business

Printing	Printing method	Direct line thermal printing
	Printing speed (Max.)	15mm/s
	Valid printing width	198mm/s
	Printing density	Adjustable from level 1 to level 3
	Printing protocol	Bitmap printing
Media	Type	Thermal fax paper, A4 copy paper
	Width	210mm
	Thickness	60-90um
	Ribbon	215mm (W) *14.5mm (Φ),14000mm (L)
Sensor		Cover open detection,Paper out sensor,Paper positing detection,Paper offset detection,Ribbon detection and TPH temperature detection.
Interface	Standard	USB Type C (Support for USB charging) Bluetooth 3.0 /4.0(Installed by Manufacturers)
Battery	Type	Rechargeable lithium battery
	Voltage	7.4V
	mAh	2000mAh
Electrical	Input	AC100~240V,50/61Hz
	Output	DC5V,2A
Reliable	TPH life	50Km
Memory	Flash	2MB
	Ram	8MB
Dimensions L*W*H		310.5×63.5×39.5mm
Weight		766g (Contain ribbon), 694g (Without Ribbon)
Certificate		CCC/FCC/CE

VARIOUS CONNECTING METHODS TO USE MORE FREELY

DUAL MODE BLUETOOTH
USB TYPE-C INTERFACE WIRED CONNECTION
SUPPORT CHARGING WITH POWER BANK□CAR CHARGER□COMPUTER

USB TYPE-C WIRED
USB CONNECTING FOR PRINTING

Small and light, A4 printing

The body size is 310.5*63.5*39.5mm, which is convenient to carry out and can be directly printed A4 carton paper

Larger capacity battery and long standby

Built-in a large capacity 7.4V 2000mAh lithium battery can standby 26 hours

Support charging with power bank、car charger、computer charging

Humanized design, easy to change supplies

Modular assembly structure, support self-suction paper
Easy to disassemble and assemble ribbon, saves time
Support special ribbon RFID identification function

Long standby, with low power sleep design

TPH: 50km
Not closed after use, will enter sleep mode after a period of time to avoid unnecessary loss

various connect methods to use more freely

Equipped with dual mode Bluetooth and USB TYPE-C interfaces. Choosing the connection you want based on you usage

Larger capacity battery and long standby

• Built-in a large capacity 7.4V 2000mAh lithium battery can standby 26 hours
Support charging with power bank、car charger、computer charging

Humanized design, easy to change supplies

• Modular assembly structure, support self-suction paper
easy to disassemble and assemble ribbon, saves time
Support special ribbon RFID identification function

Long standby Auto sleep

• Long standby, with low power sleep design
Not closed after using, will enter sleep mode after a period time to avoid unnecessary loss

• Mobile allows travel freedom
