

# i-gel® O<sub>2</sub> Resus Pack

## For use in anaesthesia and resuscitation

The i-gel® O<sub>2</sub> Resus Pack puts the things you need at your fingertips. The pack contains an i-gel® O<sub>2</sub> second generation supraglottic airway, a sachet of lubricant, an airway support strap and a suction tube, all packaged in a specially designed clear, sterile rigid pack. This unique design ensures protection of the contents, both in transit and in storage. Available in three adult sizes, the i-gel® O<sub>2</sub> has a colour-coded hook ring to allow quick and easy size identification.
