### To Whom It May Concern,

We, SIA **ELMI**, established and reputable manufacturer of laboratory equipment with factories located at Bukultu 7b, LV-1005, Riga, Latvia, hereby confirm that our product centrifuge CM-6MT complete with rotor 6M.02 fulfils the following technical requirements:

- the rotor can swing out to a horizontal position, achieving a 90<sup>0</sup> angle relative to the axis of rotation, during centrifugation;
- speed change step is 100 rpm;
- has a window for inspection;
- has overheating protection for motor;
- chamber is made of various protective screens, including stainless steel.

President SIA ELMI:

Ivan Mironov
