

SENSE

Automatic blood pressure monitor with resting indicator

NEW

RESTING INDICATOR

Cuff position control

Universal cuff 22-42 cm

Detection of arrhythmia

Hypertension level indicator

5 year warranty

The new Medel SENSE is the upper arm blood pressure monitor used to carry out measurements and monitoring of the arterial blood pressure values. Medel SENSE comes with an innovative technology able to determine automatically whether you are at rest or not, displaying an alert symbol. You are also warned of possible existing cardiac arrhythmia. The cuff position control symbol is displayed on the LCD for the right cuff positioning and an accurate measurement. 5 Year Warranty. Class IIa Medical Device.

• Clear, easy-to-read display • Risk indicator: Classification of measurements with coloured scale • Resting indicator for exact measurements • Correct cuff position indicator • 2 adjustable alarm times • Warning in case of possible heart rhythm disturbance • Universal cuff 22-42 cm • Four user memories for 30 measured values each • Average value calculation • Batteries and storage bag included.

The circulatory system is sufficiently at rest.

RESTING INDICATOR

Measurement when the circulatory system is not sufficiently at rest.
Repeat the measurement after resting for at least 5 minutes.

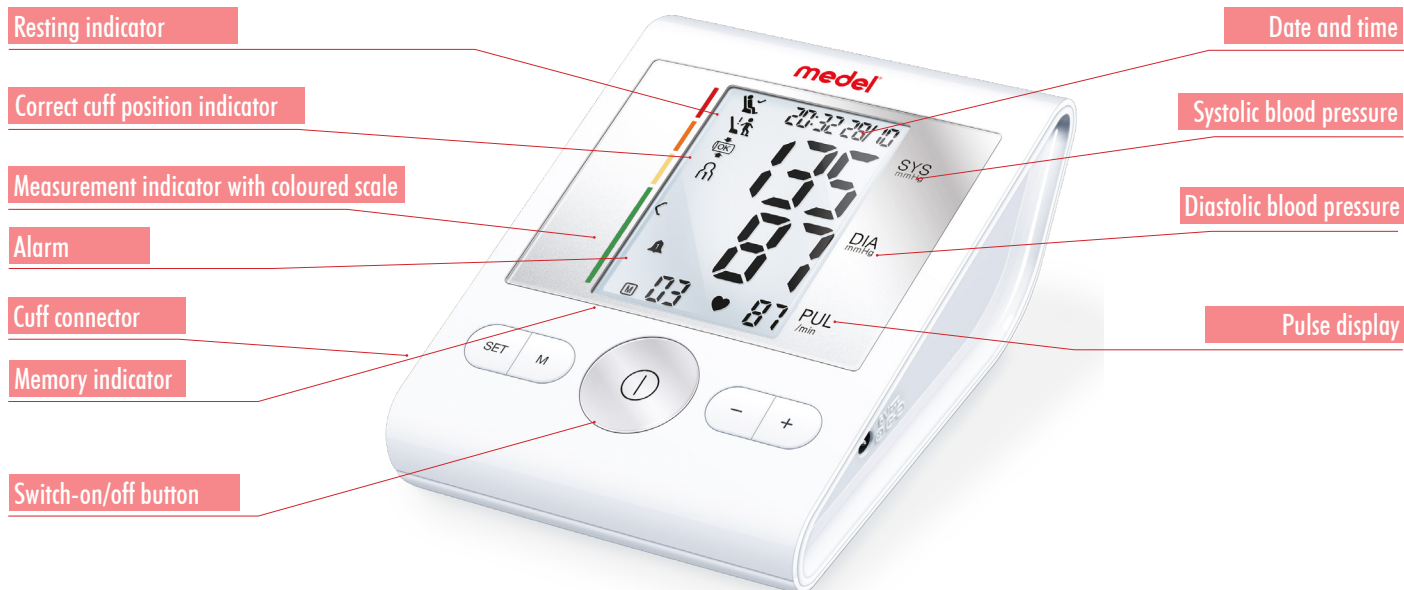

Average value calculation

4 Users with 30 memories

2 adjustable alarm times

TECHNICAL SPECIFICATIONS

Technology	Oscillometric
Accuracy	Pressure ± 3 mmHg heart beats $\pm 5\%$
Measurement range	Pressure from 0 to 300 mmHg; pulse 40-199 heart beats/min
Power supply	4 alkaline AA 1,5V
Memory	4 x 30 memories
Users	4
Systolic/Diastolic and Pulse display	✓
Date and time	✓
Irregular heart beat indicator	✓
Average	✓
Size	L 134 mm x W 103 mm x H 60 mm
Cuff type	Soft
Cuff size	Universal 22-42 cm

ALSO AVAILABLE WITH POWER SUPPLY ADAPTER
FOR USE WITHOUT BATTERIES CODE 95254
